MAKE LAST EFFORT TO END STRIKE OF IRONMEN

Boilermakers Turn Down New Agreement; Remainder of Unions Are Kept From Work

EMPLOYERS REFUSE TO RESUME OPERATIONS

Conference Is Held in Final Attempt to Remove New Obstacle to Shipping Program

Concerted eleventh-hour efforts to settle the metal trades strike so that all trades affected may return to work at once are being made in San Francisco today by the California Metal Trades Association and the Iron Trades Council. Representatives of both interests are in session at the Palace hotel in an effort to adjudge objections to the federal mediation program made by the Boilermakers' Union.

Announcement of a mass meeting of boilermakers for tomorrow afternoon at 2 o'clock, to be held at the Civic Auditorium in San Francisco, has been made by Secretary J. G. Wright of the Boilermakers' Union. The meeting will be only for members of the union. The principal speakers are to be: M. J. McGuire, R. S. Burton, president of the Iron Trades Council, and Pierre Flaherty. Efforts toward adjustment will be made then.

Not a wheel turned today in any of the big shipbuilding plants around San Francisco bay, although this was the day set for resumption of work.

Following announcement by the Boilermakers' Union that its members would refuse to accept the temporary agreement the employers kept their plants closed.

The union has gone forth from the California Metal Trades Association, representing the employers affected, to its various members not to open their shops until the boilermakers have accepted the majority ruling of the conference. But the absence of boilermakers on both sides of the bay could resume operations this morning without the trades association instructions and will remain closed until the union agrees.

MEN ARRIVE AT SHOPS READY FOR WORK

At all of the shipyards, machine shops, manufacturing concerns, airplane factories and other activities which have been tied up for nearly two weeks as a result of the strike, members of other crafts appeared early this morning prepared to resume work. But the absence of boilermakers, whose work constitutes an integral portion of the operations in most of the shops, prevented this. At Moore & Scott's yard, at the foot of Adeline street, scores of men were ready to work, but the union men, who have been at the Union Iron Works, Hall-Scott Motor Company in Berkeley and a dozen other east bay plants similar conditions existed.

Everything had been arranged for a resumption of operations this morning by the employers and labor interests. Union executives affiliated with the crafts of the Iron Trades Council had issued orders for the resumption of work on submarines, destroyers, airplanes and other items of the \$150,000,000 government construction program. The boilermakers, however, went into session at the San Francisco Labor Temple at 8 o'clock last night and at 12:30 this morning voted against returning on the schedule of wages established. Their action upset the calculations of both employers and union interests.

The active factors in withholding sanction of the mediation program are said to have been the Oakland contingent of boilermakers. This organization marched in a body from the ferry to the Labor Temple, where they immediately went into session. At the conclusion of their voting the ballots stood 143 in favor and 429 against accepting the mediation wage. The San Francisco vote was 233 in favor and 359 against. The final joint vote of both divisions of the union was 463 for and 1,092 against the return.

BETTER SCALE TO BE DEMAND OF UNION

The vote last night was not the vote of the entire membership of the boilermakers' union. Less than 1,000 out of a total membership of 4,000 men.

Laundry Used for Messages of German Spies

MEXICO CITY, Sept. 28.—The latest means of communication between the German legation in Mexico City and New York, it is declared, is being carried out by means of soiled laundry. Women travelers proceeding from Mexico to the United States, to whom the laundry is given, are requested, it is said, to send it to a certain address in New York. It is inferred that these pieces of linen carry messages written in sympathetic ink. It is also said that some of them bear telegraphic symbols beneath embroidery, which conceals the dots and dashes.

It is reported, but unconfirmed, that this plan originated with Captain Hentsche, who came over to the United States as a member of the ship's company of the commercial submarine Deutschland, and who made his way into Mexico.

HEFLIN AND MORTON IN FIST FIGHT

BY INTERNATIONAL NEWS SERVICE LEASED WIRE TO TRIBUNE

WASHINGTON, Sept. 28.—The bitter controversy in the House over the charges of Representative Hefflin of Alabama came to a dramatic climax this afternoon when Representative Norton of North Dakota, who attacked the Southern Congressman in a speech last Monday, walked over to the Democratic side, where Representative Hefflin was seated, and spoke to him in an embrace.

Hefflin immediately arose and struck at Norton, but did not hit him. Norton struck back and the two members clinched, rolling over on the floor, with Hefflin on top. The fight continued for some time, with Hefflin on top, until the two members were separated by the two Congressmen. Hefflin immediately arose and struck at Norton, but did not hit him. Norton struck back and the two members clinched, rolling over on the floor, with Hefflin on top. The fight continued for some time, with Hefflin on top, until the two members were separated by the two Congressmen.

INCREASE GIVEN

SPOKANE, Wash., Sept. 28.—Street car men here today are satisfied with the increase in wages and other concessions made by the local traction company and the state will be called, according to the union leaders. The company has granted an increase of 3 cents an hour and lowered from three to two years, the period for maximum pay. The men asked an increase of 4 cents an hour.

APPEAL REJECTED

PARIS, Sept. 28.—The Supreme Court has rejected the appeal of the Dutch dancer, Mata Hari, who recently was condemned to death as a spy by a court martial. Some time ago a revision court martial rejected the dancer's plea, but gave her the right to appeal her case to the Supreme Court.

INCOME TAX FRAUDS ARE UNEARTHED

Evasions of Payment Involving More Than \$1,000,000 Are Discovered in State by Agent

Prominent Local Men and Big Estates to Be Implicated in Scandal; Prison Threatens

Startling revelations of frauds in the evasion of payment of the federal income tax, involving some of the most prominent estates, corporations, banks and individuals in California, are expected to be made public in a short time, according to information received today from an authoritative source in the internal revenue department. Hundreds of prosecutions by the government are promised in the event that data and evidence now on hand are utilized and many business organizations and men hitherto uninvolved by a suspicion of misconduct may be shown to be implicated in the scandal, which is said to have cost the government more than a million dollars.

Discovery of the imminent upheaval in the business world came about through the transfer of Revenue Agent C. E. Boulden from San Francisco to St. Paul in exchange with Revenue Agent W. W. Anderson of that city. In seeking for the reason for the exchange, it was found that Boulden had completed investigations upon which he has been at work for months and turned over the results to his superior officers and that he is being sent to St. Paul to undertake some fresh work in that district. Anderson, it is said, is coming to finish up the preparation of the evidence in the case.

FIRST EVIDENCE IS FOUND IN GLENN COUNTY

Boulden is considered the most valuable agent in the internal revenue department because of the accuracy and importance of his work. It was through his activities that former Revenue Agent B. M. Thomas was indicted for embezzlement, that former Governor of Indiana, J. J. Scott, and his brother and chief deputy, A. C. Scott, were removed from office and that the \$29,000 fine was assessed on the Julius Levin Company for violations of the wine tax law.

The first concrete evidence of income tax evasions is said to have been unearthed by operatives under Boulden in Willows, Glenn county. This led to further investigations, with the result, it is declared, that a widespread ramification of these frauds was discovered. In this district alone over \$1,000,000 is said to have been lost to the government, while further evasions were found in Nevada and Hawaii.

INDICTMENTS MAY BE DEMANDED

Such evasions of the law are not only subject to federal indictment and fines, but are also felonies punishable under the United States penal code by imprisonment for two years. Chief of Revenue Agents Briscoe B. Boulden will receive the complete reports on these cases next Monday, it is rumored, and the next step will be for Commissioner William D. Coghlin to request United States District Attorney John W. Preston to ask for indictments by the federal grand jury on the evidence thus far obtained.

Four Fishing Vessels Lost in Hurricane

MOBILE, Ala., Sept. 28.—Last report before communication was cut off this afternoon said that a 100-mile an hour hurricane was blowing there and that property damage was great.

BY INTERNATIONAL NEWS SERVICE LEASED WIRE TO TRIBUNE

NEW ORLEANS, La., Sept. 28.—Four fishing vessels with sixteen persons on board are missing here today, and it is feared they may have perished in the hurricane which is whipping northward over the Gulf of Mexico.

The thirty-five-mile hurricane, which was expected to reach this section at noon today, is traveling slower than was at first estimated, and, according to weather men here, is now expected to strike tonight somewhere between New Orleans and Gulfport, Miss.

Shortly before noon the center of the storm was over the mouth of the Mississippi river, where the wind was blowing eighty-five miles an hour, according to reports reaching here.

Heeding the weather bureau's warning of the probable approach of the storm, hundreds of New Orleans residents deserted their homes in the outskirts and spent last night in the public and office buildings downtown. More than 300 sought refuge in the postoffice building, a customs house and the new court-house.

Boats are removing persons from the lower Barataria swamp lands and Grand Isle section.

SENATOR BETTER

WASHINGTON, Sept. 28.—Decided improvement was shown today in the condition of Senator George E. Chamberlain of Oregon, chairman of the Senate military affairs committee, who is suffering from appendicitis as well as a general breakdown due to overwork. His physicians have decided that an operation will not be necessary, but have prescribed a period of rest which will prevent his attendance at the Senate for the remainder of the session.

GERMAN COIN LEFT IN U. S. TO AID PLOT

Bernstorff Fund Assists Propaganda Arranged to Be Carried On When He Left U. S.

McAdoo Bares Situation to Big Bankers; Plans Complete to Float New Liberty Loan

By Homer J. Dodge, International News Service Staff Correspondent

ATLANTIC CITY, N. J., Sept. 28.—German money left in the United States by Count Bernstorff when he was handed his passport still is financing German propaganda in this country. Secretary of the Treasury W. McAdoo today so informed the American Banking Association in a ringing speech in which he again reviewed the reasons why the nation went to war and explained in detail the great financial program which the move entailed.

Secretary McAdoo reviewed the dispute between Germany and the United States, reciting the consistent violation of all of the principles of international law by Germany. He reviewed the promises made when the Lusitania was sunk; violation of the promises; the repudiation of the sinking of the Arabic without warning, up to the final promise that cruiser warfare would be conducted; and the repudiation of that promise, which culminated in the United States accepting the gauge of battle forced upon it.

"We chose to fight, and why?" continued the secretary. "Because, first, honor and self-respect imperatively demanded it, and, second, because we can never concede the right of any nation, however powerful, to order American vessels and American citizens to keep off the high seas and prevent them from selling the surplus products of the farm of the factory and the mine to other nations of the world."

"If we had tamely submitted to that order it would have been disaster and ruin to the American people."

REVIEWS PLAN TO FLOAT LIBERTY LOAN

The secretary then reviewed at length the financial program now before Congress, all of which already have been made public. He defended exemption of the bonds from normal taxation because, he said, a higher rate than 4 per cent would have been necessary if the bonds were taxable, and this would have interfered with and have caused a break in the security market.

The resources of the United States were recited by Secretary McAdoo as follows: Combined resources of the United States, including trust companies, \$37,000,000,000.

Farming and agricultural products for the year 1917, \$17,000,000,000.

Comparing these figures with the Civil war financing, the secretary declared that upon that basis the government should be able to raise now through government loans the stupendous total of \$74,000,000,000. He, however, added significantly:

"I am not suggesting that that be done. I am only drawing a comparison."

The secretary then made an impassioned plea to all bankers to aid in the coming Liberty loan.

PLEADS WITH NATION TO MAKE BOND GOOD

"We must make this loan a success," he continued. "We can make it a success. The failure of a single issue of government bonds would be a disaster to America in the field of battle. We must never let that happen."

America's forthcoming bond issue, he said, is pitted against a corresponding loan in Germany. Quoting a Berlin manifesto which boasted of a successful subscription campaign in the Teutonic empire, McAdoo declared:

"Let us meet that challenge by a subscription to our second Liberty loan on the 27th day of October, nine days after the close of the German loan, which will make clear to the German military despotism that America marshals not alone her brave soldiers upon the field, her invincible navy on the high seas, her industries and the length and breadth of the land; but, as well, her financial resources, and that she is determined to use them all without stint and regardless of sacrifice to vindicate American rights."

Final Plans Are Completed for New Liberty Bond Sale

BY ASSOCIATED PRESS LEASED WIRE TO TRIBUNE

WASHINGTON, Sept. 28.—Final preparations for the launching of the Liberty loan, which will total three billion dollars or more were completed today with the publication of the details of the offering by Secretary McAdoo. A nationwide campaign to obtain patriotic subscriptions to the loan will be started Monday and will close October 27.

Prominent among the features of the new offering is the privilege of converting bonds of this issue into bonds of any subsequent series carrying an interest rate in excess of 4 per cent. The terms of payment are 2 per cent on application, 18 per cent November 15, 40 per cent December 14 and 40 per cent January 15, 1918. At an interest of 4 per cent the bonds will be issued in denominations of \$50 and more. They will mature in twenty-five years, but may be redeemed at the expiration of ten years at the option of the secretary of the treasury.

Any person who subscribed to the first issue of bonds bearing interest at 3 1/2 per cent may convert his holdings into the new 4 per cent securities at his option, but the new 4 per cent bonds are taxable under the surtaxes of the new income tax rates while the 3 1/2 per cent issue is exempt. The

AMERICAN BATTLESHIP ASHORE ON ATLANTIC COAST; CREW SAFE

AN AMERICAN PORT, Sept. 28.—News reached here this afternoon that a United States battleship of the dreadnaught type is ashore and calling for assistance.

The name of the battleship is withheld by the censor. The warship is ashore somewhere along the Atlantic Coast. All the ships of the district were ordered to her assistance. A rapidly flowing tide flooded the double bottoms. The vessel is believed to carry a crew of 600 men. Stores are being rapidly removed from the ship. The Navy Department at noon authorized this statement:

"The Navy Department has received an official report stating that a battleship of the United States navy is aground in home waters. The ship is resting easily and it is expected she will be floated without difficulty."

COL. HOUSE TO COLLECT PEACE DATA

By Robert J. Bender, United Press Staff Correspondent

WASHINGTON, Sept. 28.—Colonel E. M. House, silent partner of President Wilson, has been named to hold the basis of America's contentions before the world peace conference "somewhere, sometime in the future."

Formal announcement was made by the State Department today.

Upon the shoulders of his quiet Texas friend the President has placed once more a great responsibility, gathering historical, commercial, geographical facts, to this country's use at the peace table.

It has been long accepted that House would personally represent the President at this conference. His many in past weeks. He declared that it was the intention of the entire allies to pursue "unflinching and resolutely to the end" their crusade, so that the "world shall be a better place to live in than before."

It is the purpose of both to draft for the peace councils of the world a definite plan whereby the world may be made safe against further aggression. It is not the intention of this country to interest herself in territorial additions or subtractions in Europe—except insofar as those changes are necessary to preserve

ENJOYS CONFIDENCE OF GERMAN PEOPLE

Singularly enough, Colonel House enjoys the confidence of most Germans. On his visit to the German empire he was accepted as a friend by the German leaders, and those of the court circles and those who voiced the views of the Liberals and he poured out their secret thoughts and desires to him. They talked more plainly to him, officials here and there, than to any other person who has entered German territory since the war began.

Colonel House is known to entertain the view that the German people eventually will demand that they be permitted to dictate the political future of the empire themselves.

No information as to what Colonel House has done or is doing is forthcoming from the state department.

It was admitted that he has had a series of assistants named to assist him in compiling the data which is needed and this information will come from diplomatic and consular reports of the United States in every European country.

Colonel House is not empowered now to go abroad or to sound out either the allies or the Teutons on the subject of peace, it was stated. The department said his work will be similar to that of a group of college professors and others in England and France who have been collecting information for the allies ever since the war started.

REICHSTAG SEES NEW PEACE DISCUSSION

COPENHAGEN, Sept. 28.—Charges that certain government authorities are supporting the Pan-German and conservative forces in the agitation to reverse the Reichstag majority yesterday, and to commit Germany to the so-called Hindenburg peace, may be made the subject of an interpellation at the present session of the Reichstag, Berlin newspapers with authority tonight after a three-day interruption indicate that the interpellation was discussed at a meeting of the steering committee of the Reichstag on Wednesday.

It was decided to postpone action in order to give Chancellor Michaelis an opportunity to make certain explanations. This Philip Scheidemann, the Socialist leader, explained would allow the committee to determine the form which the interpellation should take, but it will not be off a big debate on the subject. Georg Ledebour, the radical Socialist, made a vain attempt to set the debate for today.

OPPOSE RUSSIA

BY INTERNATIONAL NEWS SERVICE LEASED WIRE TO TRIBUNE

HELSINKI, Sept. 28.—Despatch from Helsinki tells of great excitement there today following the call issued by the Talmans of the Diet for a session, which, according to the call, will convene at noon today. There is no secret to the plan of the Talmans and his followers to take further steps to separate Finland from Russia.

The call is in direct opposition to the will of the Russian provisional government. Kerensky is determined to prevent the session should he even be compelled to resort to military force.

WILL DIRECT SHIPS

WASHINGTON, Sept. 28.—Edward F. Carry of Chicago was designated today as the man who will operate America's merchant fleet. The United States Shipping Board today confirmed the appointment of Carry as director of operations. His duties will embrace the operation of the entire fleet of vessels now under construction by the Shipping Board and those to be constructed. Carry is well known among railroad and shipping men.

NO PEACE FOR UNREPENTANT SAYS MILNER

BY ASSOCIATED PRESS LEASED WIRE TO TRIBUNE

LONDON, Sept. 28.—Viscount Milner, minister without portfolio in the British war council, speaking today at the American Luncheon Club, declared against any peace with the unrepentant German rulers. Touching on the entry of the United States into the war and the moral significance of it, Lord Milner evoked a tremendous outburst from those at the luncheon when he said:

"I feel that your country and mine are now united by something far stronger than any written pact or alliance, namely by an absolute unity of motive and aim."

Viscount Milner's speech "obviously was an answer to the peace talk which has been filtering from Germany in past weeks. He declared that it was the intention of the entire allies to pursue "unflinching and resolutely to the end" their crusade, so that the "world shall be a better place to live in than before."

It is the purpose of both to draft for the peace councils of the world a definite plan whereby the world may be made safe against further aggression. It is not the intention of this country to interest herself in territorial additions or subtractions in Europe—except insofar as those changes are necessary to preserve

MICHAELIS SAYS POPE IS SINCERE

BY ASSOCIATED PRESS LEASED WIRE TO TRIBUNE

BERLIN, Sept. 28.—Chancellor Michaelis, the German imperial chancellor, in a speech to the main committee of the Reichstag, said that Pope Benedict's peace proposals were inspired by moral seriousness, pure and unadorned, which things were lacking in the reply made by President Wilson to the Pope.

The constitution committee of the Reichstag, according to a despatch from Berlin by a vote of 15 to 12 yesterday adopted an appeal to cancel the concluding sentence of article 9 of the imperial constitution which forbids members of the federal council from simultaneous membership in the Reichstag. The committee adjourned after passing an order of the day which declared: "The Reichstag will co-operate in the event of the conclusion of peace."

PAN-GERMAN PAPER IS SUPPRESSED

STOCKHOLM, Sept. 28.—Under orders of the military authorities the Pan-German newspaper Deutsche Zeitung of Berlin has been suppressed and the Socialist Volks Wacht of Dantzig has been placed under preventive censorship. In connection with this and other recent suppressions of newspapers in Germany it is interesting to recall the ultimatum issued by the main committee of the Reichstag at its session in August. The committee gave the government four weeks to reform the censorship, restoring it to its proper place in the control of publication of the news. Censorship of political newspapers by the military has never been more active than at present.

NEW PEACE OFFER

LONDON, Sept. 28.—Germany has secretly communicated to the Pope that the Central powers will go much further to obtain peace than the formal reply to the Pope's peace note indicated according to a despatch from Rome today.

AMSTERDAM, Sept. 28.—Chancellor Michaelis abandoned his plan to speak publicly on the question of peace before the Reichstag following a conference with military leaders, according to word received here today from Berlin. The chancellor did not announce his change in plans until the last moment before the Reichstag met.

FLOUR IS REDUCED

PORTLAND, Ore., Sept. 28.—Flour prices today are as low as they will go this year. A reduction of 40 cents went into force on the Portland market this morning, making family patent brands \$10.20 a barrel, according to T. B. Wilcox, who represents the wheat and flour purchasing committee of the national food administration on the Pacific Coast. The announcement also is made of a reduction of \$3 a ton in mill and feed prices for the Pacific Northwest.

The flour price will be maintained at least through October, but after that it may be advanced when carrying charges on grain increase.

SUFFRAGE IN OHIO

COLUMBUS, O., Sept. 28.—Ohio's eighteen county election boards were ordered today by Secretary of State Fulton to place the suffrage amendment on the November election ballot. Fulton reported that sufficient signatures had been filed.

DARK HORSE WINS LEASE FROM UNION COMPANY

Attorney A. J. Woolsey, Representing Unknown Interests, Outbids Construction Co.

LIMIT IS REACHED IN \$17,600 OFFERED

Commissioner Morse Proceeds With Auction of Privilege on the Western Waterfront

Balked by a determined competition, the Union Construction Company was forced to withdraw from a spirited bidding contest for the lease of acreage on the western waterfront in an auction held by Commissioner Morse during the noon hour today.

Attorney A. J. Woolsey, in behalf of himself, but representing other interests, was declared the highest bidder at \$17,601 a year rental, made after Attorney Thomas R. White, representing the Union Construction Company, had bid \$17,600.

Woolsey represents capital that will develop the property industrially. The names of the parties were withheld, but it can be stated on the highest authority that the bid was bona fide and did not represent any offshoot of the Union Construction Company.

W. W. Johnson, member of the Union Construction Company, announced that he had reached his limit at \$17,600, that he would not further raise the bid would be useless and that he would make application immediately for a lease, joining that which was bid in by Woolsey.

Of the surprise, apparently, of the members of the city council, a large delegation of citizens who were present to witness the proceedings, the second bidder for the lease put in his appearance three minutes before the noon hour, the time set for the auction of bids. Attorney White made the first bid of \$2,250 for annual rental and deposited a certified check for \$2,500 as guarantee.

The terms of the proposed lease are that no bid less than \$15,000 a year should be accepted. The deposit was to be returned by the time the amount of the lease was determined.

BIDS ARE BOOSTED TO FINAL LIMIT

Attorney Woolsey immediately raised the amount to \$16,013, putting up \$2,500 in gold on deposit. His bid was raised to \$16,060, and he backed it with a \$10,000 check. From the large delegation of citizens who were present to witness the proceedings, the second bidder for the lease put in his appearance three minutes before the noon hour, the time set for the auction of bids. Attorney White made the first bid of \$2,250 for annual rental and deposited a certified check for \$2,500 as guarantee.

The terms of the proposed lease are that no bid less than \$15,000 a year should be accepted. The deposit was to be returned by the time the amount of the lease was determined.

The terms of the proposed lease are that no bid less than \$15,000 a year should be accepted. The deposit was to be returned by the time the amount of the lease was determined.

ARGUMENTS MADE AS TO LEASE

Prior to the auction a large delegation of citizens assembled in the council chamber where arguments pro and con on the subject of the advisability of making such a lease was discussed.

Fred E. Reed, in behalf of the Harbor Protective League, raised the point that the council in recently appropriating \$300 to defray a portion of the expenses of City Attorney Paul C. Mori on his Eastern tour of investigation of waterfront matters, laid them open to unwarranted expenditure and waste of public funds unless they waited to hear his report on the subject before granting the lease.

Reed contended that the city's funds would otherwise be improperly expended and that the majority members of the council should at least wait until a report was received from Mori and then act on the subject of the lease.

Reed then asked Commissioner Edwards to introduce a resolution and Commissioner Soderberg to second it, for the holding over of the matter until the return of Attorney Henry Mori.

EDWARDS SAYS REMEDY IS REFERENDUM

Commissioner Edwards contended that any opposition to the lease could be brought out through a referendum called for by ten per cent of the voters. He declared that such drastic measures should not be forced upon the people who had endeavored to give every opportunity for open debate on the subject.

He accused Mayor Davis and Commissioners Edwards and Soderberg of failing to attend the meeting of discussion last night, declaring they apparently did not care to enter into any fair debate on the proposition. He pointed out that on the other hand the Mayor and his constituency had

U.S. INDICTS 160 LEADERS OF I. W. W.

BY ASSOCIATED PRESS
LEADERS OF I. W. W.

WASHINGTON, Sept. 23.—More than 160 leaders of the Industrial Workers of the World, engaged in the alleged nation-wide conspiracy to hamper the government in carrying on the war, have been indicted by the federal grand jury at Chicago.

Indictments will be handed into the court probably today. Between 150 and 170 persons, resident in almost every section of the country, are named in the indictments.

Seditious conspiracy—the crime nearest to treason within the definition of the criminal code—is charged. This offense is punishable by six years imprisonment or \$5000 fine, or both.

LEADERS IN 50 CITIES
TO BE ARRESTED

Indictments are understood to be based upon revelations brought to light in the recent country-wide seizure by federal authorities of documents and correspondence of the I. W. W. in fifty towns and cities. These documents are understood to have revealed the existence of a conspiracy, the most far-reaching in its scope of any yet unearthed, to embarrass the government in the prosecution of the war by resistance to the draft law, by fomenting labor disturbances, by burning crops and forests and in numerous other ways.

A comparatively small number of men is understood to have directed the entire movement.

Officials here feel that in many instances the alleged ringleaders of these anti-war activities are virtually guilty of treason, but because of the narrow definition of treason in the criminal code and in numerous court decisions, it is impossible to bring the grand jury to find indictments on the broader charge of seditious conspiracy.

Five Aviators, and Navy Men Involved in Big Spy Plot

Widespread tenacious of a German spy plot that reached into the army and navy and included five members of the aviation corps, an army recruiting officer and two ensigns in the navy, are expected to be revealed today with the arrest of these men, all said to be involved in treasonable conspiracy with Lieutenant Schneider, a German spy, who is being held at San Diego, Cal., and the other at Newport News.

It is stated that orders have been issued for the arrest of the army and navy officers, and the ensigns being held at San Diego, Cal., and the other at Newport News.

The investigation is now centered in Southern California and is being handled by the military authorities at San Diego and the federal civil authorities at Los Angeles.

"MASTER SPY'S" ACTS
ARE REVEALED

The ramifications of the alleged spy plot centering in Lieutenant Schneider and Kasper were revealed with the receipt of orders yesterday transferring the two from the San Francisco city prison, where they have been held incommunicado for the last six weeks, to Fort McDowell military prison.

Schneider is described by federal authorities as "a master spy."

Held at present at Laredo, Tex., on orders from Washington for removal to this city are four Austrian army officers, associates of Schneider, who were arrested as they were about to cross into Mexico. They are Raymond Heimisch, Herman Ehrnreich, James Froelich and E. A. Kietel.

"OBJECTORS" ARRESTED IN NEW YORK RAID

NEW YORK, Sept. 23.—United States officers, aided down on the League of Conscientious Objectors in the Labor Temple last night.

They mounted the platform during an alleged seditious speech, cleared out the speakers and arrested a number of the more vociferous objectors.

After a near-riot lasting upward of twenty minutes, they drove the entire audience into the street.

German War Strength Is 6,800,000 Men; Drain Heavy

Youths Under 18 in
Class to Be
Drawn On

By Henry Wood,

United Press Staff Correspondent.

WITH THE FRENCH ARMIES IN THE FIELD, Sept. 23.—Germany today has 6,800,000 men as the human "material" with which to enforce her demand for "a place in the sun."

This is the man-power that remains out of a total of 14,000,000 men who have figured on the German military lists and which is the hands of Germany's military arm.

Of the 6,800,000, approximately 5,500,000 are actually at the front and 800,000 more are in reserve. The remaining 700,000 constitute one of the greatest tragedies of the war. These are the boy soldiers of the classes of 1915 and 1920. They constitute the only resource of "human material" upon which Germany has to draw.

They must fill up losses in the German army which with no major allied offensives in progress, normally total from 70,000 to 80,000 monthly. To date, however, the German general staff has not yet succeeded in imposing on the German people its right to seize these youths before they are 18. Therefore, this last drop of potential German manhood cannot pass into the army except in piecemeal lots, as the boys attain the age of 18.

FIGURES TAKEN FROM
ACCURATE SOURCE

The figures cited herewith are based upon the highest and most accurate sources of information. From this same source it is possible for the United Press today to detail this history of Germany's mobilization efforts.

Before the war the German army contained five divisions of 870,000 men. Mobilization at the declaration of war of all who had previous military training brought the total to 4,600,000.

But these were insufficient. The Ersatz (replacement) army, as it was called, was a trifle under normal army standard. The class of 1914 was called out—450,000 men, who became 20 in that year.

In 1915, call for the first of the Landsturm yielded 1,100,000 men; the 1916 class another 450,000; a special call in September for the remainder of the Landsturm, 180,000, and an advance call for the 1915 class, 450,000. Still more men were wanted; therefore Germany combed out 300,000 more by stringent examination of those previously exempted.

BOYS ARE CALLED INTO WAR SERVICE

In 1916 the 1917 class was called out early—450,000 boys 18 and 19 years of age. Another coming process added 300,000 more, and finally, in November the 1918 class was called out—another 450,000.

In 1917 the demand for human material was still more pressing. Another sousing process found 150,000 more men, and the emergency of every man who by any stretch of imagination might be called into service.

5,500,000 AT FRONT BOYS TO BE CALLED

GERMANY'S PRESENT MAN POWER.

Soldiers at the front or in cantonments, 5,500,000.

Soldiers at depots, constituting the reserve, 600,000.

Classes of 1919 and 1920, still unincorporated, 700,000.

Total, 6,800,000.

HOW GERMANY HAS LOST MAN POWER.

Losses in the army through casualties, 4,000,000.

Not yet capable of service, 200,000.

German reservists in foreign countries (50,000 in the United States alone), 200,000.

Germania physically incapable of army service, 2,100,000.

Employed in indispensable industries, 500,000.

Total, 7,100,000.

SAILOR DROPS DEAD ON SHIP

Chief Officer Nick Thompson of the steamer Kivchook of the Alaska Packers' fleet dropped dead at 1 o'clock today on the deck of his ship after having taken a plunge in the waters of the estuary. For half an hour after coming out of the water he talked to members of the crew and just before he dropped dead, declared that he was feeling fine as a result of the swim. Two minutes after he fell life was extinct. He was rushed to the Oakland Emergency Hospital, where it was determined that nothing could be done.

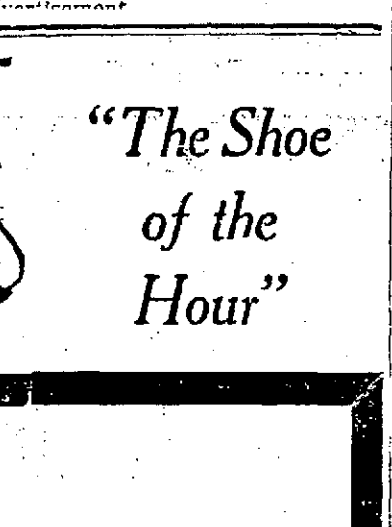

One of Thompson's brothers is captain of the ship Star of Lapland, now docked in Alameda, and another brother is captain of the ship Indiana, which is lying in the stream preparatory to docking. Thompson returned with the Alaska Packers' fleet two weeks ago from the Behring sea.

as fit for military service. There remained no other resource except the boys, taken as soon as they became 18.

Not before 1918 can the German staff begin incorporating the 1921 class—and then only as fast as they become 18. At least 500,000 fit men are needed for indispensable industrial and civil services behind the lines. The utterly unfit total 2,800,000.

Doctors Agree on This One Thing

Doctors are united on the fact that there is nothing more nutritious than ice cream and all agree it is most delicious. If it comes from Lehnhardt's there is none better. Phone today, Oak. 406, for an order and you will be surprised at how reasonable a price you can serve your dessert.

Stop and Think—Kidney Diseases Killed 100,000 Last Year

Health Authorities Alarmed at the Increasing
Death Rate Each Year From Kidney Diseases

In our pursuit of the mighty dollar, we too often are absorbed in the topics of the day, pleasure, etc., to stop and consider our health. Stop now—think—kidney diseases caused 100,000 deaths last year. Are you going to be included in this year's list? Why, you will exclaim, do so may die, why are the health authorities so concerned? The answer is, we bolt down our food, take no exercise, neglect our sleep and otherwise subject our system to all sorts of abuse. Is it any wonder then the kidneys become diseased and fall in their duties of poison elimination?

Poisons are constantly being created in our bodies and if the kidneys fail to carry them they are absorbed by the blood causing ill health, misery in the form of headaches, backaches, tired feeling, indigestion, etc.

You may avoid considerable suffering if you heed nature's warnings and

EMBARGO PLACED ON MORE SUPPLIES

WASHINGTON, Sept. 23.—A virtual embargo on the export of certain foodstuffs and feeds was declared by the export administrative board in adding a list of articles to those already denied shipment except where their export will contribute to the conduct of the war. The commodities added are food grains and feed grains, oil cake and meal, animal fats, vegetable oils and soap, caustic soda and certain machinery. Where the foods and feeds named are permitted to go forward they can be licensed only with the approval of the food administration. The additional articles, it was announced, are placed under embargo because of diminishing supplies and to meet the actual needs of America. Licenses will be granted for their export, it is announced, only "when destined for actual war purposes or when they will directly contribute thereto; in certain unusual cases where such exports will contribute directly to the immediate production of important commodities required by the United States; and in certain other cases where the articles may be exported in limited quantities without detriment to this country, such as food grains and fats, which require the approval of the food administration."

In making the announcement the export board advised exporters and commission agents to obtain licenses before making purchases for export and before reserving tonnage space.

Individual licenses will be granted for export of the commodities on the conservation list to New Zealand, Mexico and Canada, except in small lots which will be licensed by collectors of customs.

ACCUSES SPOUSE

Arthur Warren Towle, a wealthy lumberman of Oakland, is being sued for divorce by Claire Monroe Towle, on a charge of inflicting mental and physical cruelty.

Bankers Rally to New Loan Plans Are Made For Campaign

(Continued From Page 1)

effect of this will be that holders of large amounts undoubtedly will keep their tax-exempt bonds, although they bear a lower rate, while the smaller holders, as they have not enough to come under the surtaxes, will convert their bonds to the higher rate.

The campaign to sell \$2,000,000,000 in war savings certificates, Frank A. Vanderlip, chairman of the war savings committee, announced today, will be separate from the second Liberty loan campaign, and probably will begin about December 1.

Victory Sure, Is Vrooman's Word to U. S. Bankers

By Homer J. Dodge,
International News Service Staff Correspondent.

ATLANTIC CITY, N. J., Sept. 23.—"Victory is as sure as tomorrow's sun," declared Carl Vrooman, assistant secretary of agriculture, while addressing the American Bankers' Association here today. "The only question is how soon. This is a food war now, and we have the food, enough, though we are facing the war's most dreadful handmaiden, famine."

It is not our famine, but that of a sisterhood of nations, for we know that millions of our fellowmen are starving. In fact, this dread mother of pestilence is our greatest foe.

"If this war is to be won we shall have to put several armies in the field—the army of soldiers in the trenches, the army of food producers in the furrows, the women's army of food conservers and a patriotic army of

Liberty Bonds Make New Record on Stock Market

NEW YORK, Sept. 23.—Liberty bonds made another new high record at the outset of today's trading, selling at 100.16, two points above the previous high mark reached yesterday.

Heavy buying of Liberty bonds was the outstanding feature of today's early trading on the Stock Exchange. Over \$1,000,000 worth of these bonds changed hands in the first hour at quotations ranging from 100.12 to 100.20, the latter price representing an advance of six one-hundredths over the previous maximum made in yesterday's large dealings.

2 SHIP ACCIDENTS

SAN FRANCISCO, Sept. 23.—The motor schooner Margaret, bound from Astoria with a cargo of lumber on her maiden voyage, has put into a Pacific port on account of engine trouble, according to marine advices received here today.

EUREKA, Sept. 23.—Following her arrival from San Francisco in a waterlogged condition as a result of her striking a floating object at sea, the steamer South Coast was beached here today. Divers are working to check the water flowing into the ship's hold.

EIGHTH INFANTRY AT CAMP FREMONT

CAMP FREMONT, Menlo Park, Sept. 23.—The first big body of troops to take up quarters here reached here today when the Eighth United States infantry arrived from the Presidio of San Francisco. The Eighth only recently reached the Presidio from the Philippines where it had served for five years.

When the regiment arrived here it was almost shorn of commissioned officers. Top sergeants in many cases were in command of whole companies and some of them even acted as battalion chiefs. Most of the officers who were in charge of the regiment when it left the Philippines have been promoted and assigned to other commands and their places have not yet been filled.

Within the next ten days two more regiments of the Eighth infantry and three more regiments of cavalry are expected here.

LIGHTS BLAMED

MERCED, Sept. 23.—Mr. and Mrs. George Keesling of Los Angeles were injured in an automobile accident last night when their car upset in a ditch. Blinding light from an approaching car's headlights caused the accident. Mrs. Keesling's eye was injured and Keesling was badly bruised.

The directors of the company are Leon F. Douglass, millionaire inventor of the color film, San Rafael; Thomas Boyd, district attorney of Marin county; S. E. Boyd, San Rafael; Peter Backlund, Jr., San Francisco; Henry A. Melvin, justice of the supreme court; Thomas J. Lennon, presiding justice of the first district appellate court, and Frank H. Kerrigan, associate judge of the appellate court, San Francisco.

SOLDIERS' BILLS GIVEN SETBACK

WASHINGTON, Sept. 28.—Complete failure today threatened the administration program for popularizing the draft with legislation designed to make the American soldier the best conditioned fighting man in the world. The soldiers' and sailors' civil rights bill was declared unconstitutional by the Senate judiciary sub-committee which has been investigating the measure.

Opposition appeared in several quarters to the soldiers' and sailors' insurance bill and under the passage of the measure at this session uncertain.

These two measures were prepared by the administration with a view to protecting the American soldier and sailor and removing many of the objections raised against the draft. The civil rights bill would prevent landlords from throwing soldiers and sailors' families into the street for failure to pay rent during the war. It would prevent the foreclosure of mortgages on soldiers' and sailors' property while the war rages. It would prevent unpatriotic persons from taking advantage in the courts of the absence of soldiers and sailors. The insurance bill already passed by the House would protect soldiers and sailors and their families in case of injury or death in line of duty.

The judiciary sub-committee takes the view that the civil rights bill

NASTY MEDICINES BAD FOR CHILDREN

It is not often a child requires medicine of any kind. If the bowels are regular and promptly disposed of undigested matter discarded by the stomach, the general health is very apt to be excellent. In any case, pills, powders, and nauseating or unpalatable compounds should never be given to children. Any therapeutic virtue such remedies may possess is largely nullified by the youngsters' natural antagonism.

For most children a mild laxative, administered occasionally, is all that is needed to assure normal regularity of good health. Dr. Caldwell's Syrup Pepsin is a pleasant-tasting combination of simple laxative herbs with pepsin, free from opiate or narcotic drugs, and acts greatly yet effectively; children like it and take it readily, so that it is the ideal remedy for the family medicine chest. It is sold in drug stores for fifty cents a bottle. A trial bottle, free of charge, can be obtained by writing to Dr. W. E. Caldwell, 436 Washington St., Mount Carlo, Illinois.

Ultimatum Ended War Aims Roosevelt Tells of Great Peril

CHICAGO, Sept. 28.—Colonel Roosevelt today gave his own version of the secret conference he held with the German ambassador in 1902 relating to the occupation of Venezuela by Germany, an incident that then threatened to bring on a war between Germany and the United States. Colonel Roosevelt told the story for the first time, he said, in an address at a luncheon. He said: "It was about a year after I took office. Germany was then engaged as she had been for years in striving to extend her domain all over the world. She had in view certain chosen positions in South America. That was why Germany was the strongest foe of the Monroe doctrine. She aimed to turn South America into a German appendage. Venezuela at that time had a dictator named Castro, commonly known as the 'Monkey of the Andes.' "I was determined that Venezuela should not become a German possession. Germany said it was not to be permanent and did not define what was meant by permanency. I permitted John Hay to write a number of notes and then decided to handle the matter myself. I sent for the German ambassador and said to him: 'This Venezuela business has been going on long enough and I cannot afford to let it get to the point where it will cause trouble for this country.' "BACKED BY BRITISH. "At that time England was backing Germany and, while I had both against me, I paid little attention to England but kept my eye on Germany. It was the last flicker of England's antagonism to the United States. "I called the attention of the ambassador to the fact that Germany had a squadron of warships near Venezuela, threatening the mouth of the proposed isthmian canal. I demanded a statement of what Germany meant by temporary possession, say, abridges contracts and thereby violates the fundamental law of the land. If the sub-committee's finding is sustained by the whole committee the bill will be pigeon-holed until next session. "While the Senate generally takes a friendly view of the insurance bill, there is a feeling that the measure ought to be subjected to the most thorough scrutiny and discussion. Since leaders have laid their plans to adjourn early next month and much work remains to be completed, fear was expressed today that the measure would have to be sidetracked until December.

ing I did not propose to have any ninety-nine year leases. "HIS ULTIMATUM. "The ambassador told me he did not feel he was at liberty to discuss such an important question. That conference wound up with the following ultimatum: "Tell your government that in ten days it must arbitrate the matter or I will send Dewey down there. "Thirty days before I had ordered Dewey to take our fleet into West Indian waters just for a friendly cruise, you know. "I cannot send such a message, Mr. President. I do not think you realize what it means," the ambassador replied. "You think it means war?" I asked. "AFRAID TO SAY. "I do not want to say what I think," was the reply. "If it means war you have chosen the one spot where you cannot fight us," I replied, and then I showed by maps our commanding position. "When he retired I sent word to Dewey to be ready to sail on an hour's notice. About a week later the ambassador called on me and talked about the weather and tennis, and when I asked about the Venezuelan answer, he admitted that he had not dared send the message. "I then told him that instead of allowing three days that remained for an answer I would order Dewey to sail in forty-eight hours. He then told me it would be an awful thing for this country. "Yes, but it will be more awful for your country," I replied. "Inside of thirty-six hours he came back smiling and said he had received instructions from the German government that they would arbitrate."

WILL GIVE SHOWS

Soldiers in Uncle Sam's different cantonments throughout the country are to have the privileges of the highest class of entertainment that can be obtained during the coming winter and through different sources arrangements are now being made under contract for talent to appear before the boys in khaki. Mr. and Mrs. William Merton Rasmus, who recently directed the Knights of Pythias Red Cross benefit at the Auditorium, have made arrangements through the Y. M. C. A. to visit the different army camps in the country. They will remain in California for the next few weeks and will then go North or to one of the Eastern camps. Both are widely known as interpreters of dramatic plays, having appeared in "The Music Master" and other celebrated plays.

FILMS FOR BOYS

Another children's matinee will be put on at the Kinema theater under Boy Scout auspices tomorrow morning at 10 o'clock. The entertainment given last Saturday was so enthusiastically received that the members of the Boy Scout committee were encouraged to show another new program this week which includes the following features: "The Boy Who Cried Wolf," a story by Richard Harding Davis; "The Half-Egg," a three-reel college football story of a fellow who wouldn't be downed; "Playing in Florida," "Crystals in Formation," "Joy Riders of the Ocean," and "In Love's Laboratory."

ARCTIC IS FILMED

"Bowhead Hunting in the Arctic" will be the subject of an illustrated lecture by Dr. John L. Lawrence of Australia, under the auspices of the Board of Education in the Clawson school, Thirty-second and Magnolia streets, this evening. He will present seven reels of feature film depicting the wonderful trip from San Francisco to Eastern Siberia. Among the scenes shown will be walrus hunting, including a fight with a mammoth and a walrus weighing five tons; whaling, portraying the capture of a bowhead whale about ninety feet in length and weighing about ten tons; the chase and killing of a great polar bear, also amusing pictures of native life in the Arctic.

MAKE LAST EFFORT TO END STRIKE

(Continued From Page 1)

bers attended the meeting last night and cast the majority ballots against the return. Just what action the remaining \$600 will take today remains a matter of speculation. It is thought that some arrangement will be made so that the men can return to work late this afternoon. Both labor leaders and employers are working on this phase of the situation.

A prominent official of the bollemakers' union said this morning that his union would not return to work until a better scale of wages had been offered them.

"The majority has ruled and there can be no comment upon their action," he said. "The employers can afford to pay a better scale and their calling another conference and giving us a better scale will send us back to work and not before."

There has been no conference called on their side, M. J. McGuire, business agent of the bollemakers' union, and Gavin McNab, government mediator, said this morning.

Gavin McNab said this morning that he had received no instructions from Washington as to future moves in this case. The failure of the bollemakers to accept the scale as a body, agreed to by their representatives at the conference, was a matter within the union itself, he said.

"It is a blow, of course, to buy industries and to master to be regretted, but I trust that the men will reconsider their action and return to work by Monday morning," commented McNab.

Possibilities are being admitted in union circles today that another strike will be called in six weeks. The weekly assessment of members for strike benefits, to constitute an emergency fund, is still going on. It is estimated that more than \$400,000 has been accumulated.

"If it is true that the bollemakers' union has refused to return to work the shops connected with this association will remain closed," declared a statement issued by the California Metal Trades Association, representing the employers affected, this morning. "We will issue instructions to all members of this association and the California Foundrymen's Association to that effect. In case shops do open through failure to receive our notification they will be shut down again on Saturday and remain shut until the Iron Trades Council prevails upon the bollemakers to abide by the rule of the majority composing that body and return to work under the temporary agreement signed by the conference committee of the iron workers and the employers."

Just what action the Iron Trades Council may take remains the main topic of interest in union circles today. Under the rules of the organization it provides that all crafts affiliated with the council must abide by the decision of the majority of the twenty-five unions composing the council. The council can expel the bollemakers' union members if it desires, as was done two years ago when the bollemakers were penalized before being permitted to become members of the Iron Trades Council again.

Four hundred employees of the C. L. Best Gas Traction Company at San Leandro resumed work this morning until the California Metal Trades Association notified them to remain out until the bollemakers dispute is settled. The men accordingly stopped work and the plant was again closed down. There are no bollemakers employed at the Best plant.

United States army authorities here issued a declaration today pointing out that "any delay or obstruction in the shipbuilding program is one which favors our enemy, the German nation, and delays and obstructs the termination of the war." Every day of the strike here, the statement points out, prolongs the conflict.

EXPERT IS HERE TO HANG BELLS

BERKELEY, Sept. 26.—W. H. Billingshurst of Loughborough, England, is one of the most unusual men in this country today. He is a bellhanger. There are plenty of bellhangers in the country but no other bellhanger such as he. Billingshurst has hung the deepest toned bell ever cast. He has hung bells all the way from Denmark to Canada. He is in Berkeley now to hang the chiming in the Jane K. Sather Campanile on the University of California campus.

The bells will be in Berkeley within a few days. For several days before they are hung they will be on public exhibition. There are twelve of them, the smallest being two feet one inch in diameter, one foot eight inches tall and weighing 349 pounds; the largest, four feet eleven inches in diameter, three feet ten inches tall and weighing 402 pounds, or a little over two tons.

"You ought to be able to hear these bells four or five miles under favorable conditions," Billingshurst said today. "The arrangement of the Campanile belfry is really excellent. It offers no obstruction to the vibrations of the bells and for that reason the sound should be perfect. I shall start to hang the bells within a day or so after they arrive in Berkeley and it will not take more than a month to complete the task."

Billingshurst was sent here by John Taylor and Company, who cast the bells. He has been with the firm 27 years. He hung immense sets of chiming at Exeter and at Queenstown. He had another important job of the kind in Denmark and in Canada. In the cathedral at Exeter he hung the bell with the heaviest peal in the world, weighing 8102 pounds and having a diameter of 10 feet 6 inches.

Once the chiming are in place in the Campanile belfry they will be played three times a day by the chiming master. The first playing will be from 8 to 8:10 a.m.; the second, from 12 to 12:10 p.m.; and the third from 5 to 5:10 p.m. On Sundays they will be played but once, from 4:15 to 4:30 p.m.

CHIEF IS AUTHOR
ALAMEDA, Sept. 26.—Chief of Police E. C. Heinrich of this city has an article in the September number of the Journal of Criminal Law and Criminology. The article is entitled "The Co-Operation of a Library Staff With the Criminal Investigator." The article includes the papers presented before the American Association of Law Libraries, held in Louisville, Ky., June 21. The journal is the official publication of the American Institute of Criminology.

"DRY" DEPARTURE SHOE BETRAYS STRIKE IS NEAR

BAKERSFIELD, Sept. 26.—Acting on the request of the two Kern county exemption boards, Mayor Taylor of Bakersfield has addressed a letter to Governor Stephens, asking him to place a request with the Bakersfield City Council for the closing of all saloons in this city for ten hours, from the departure of the next group of drafted men for Camp Lewis.

Acting in the matter follows the receipt of numerous reports of drunkenness among drafted men when the first and second Kern county contingents departed for American Lake.

SALENA, Sept. 26.—E. F. Boyce was arrested yesterday on a charge of soliciting funds from Chinese upon fraudulent pretenses. Boyce, it is alleged, came to this section and represented himself as having been sent by Governor Stephens to collect funds for the Red Cross. When he left the place of business of the Chinese, he noticed that the sole of one of Boyce's shoes was loose from the upper, which excited the curiosity of the Asiatic. He felt that any one representing the Governor of the state should at least wear good shoes. He told his suspicions to an officer, which started the investigation that resulted in the arrest of Boyce.

TORONTO, Ont., Sept. 26.—Unless the government intervenes and finds a way to force the Great Northwestern Telegraph company to accept the majority award of the board of conciliation a general strike involving all the telegraphers in Canada is a possibility. Such action was considered at a meeting of the representatives of the Canadian Pacific Railway, broker and press operators and striking Great Northwestern men here and a resolution setting forth this possibility was ordered forwarded to the Department of Labor. Another meeting will be held Sunday, when a final decision will be reached.

DRAFT QUOTA TO BE GIVEN BIG SEND-OFF

Assembling to pay a farewell tribute to the loyalty and devotion of the "Liberty boys" of the east bay cities and Alameda county shortly before the final contingent of the first draft for the new national army of democracy leaves this city on October 3, the citizens of Oakland, Berkeley, Alameda, Piedmont, Emeryville, Albany, San Leandro and Hayward will gather on the afternoon and evening of Monday, October 1, in Loma park to hold a great popular rally. Proclamations naming the liberty day have been issued by Mayor John L. Davis and the mayors of the neighboring cities.

TO SPEED MEN.
On that day thousands of citizens will congregate to demonstrate by the presence of their approval of the patriotism and sacrifices of the young men who are to depart soon for their military training at Camp Lewis, American Lake. It will be a joyous occasion, with laughter and cheering, and the departure of the men; but underneath the joy will be the deep and steady current of determination to make the world safe for democracy.

Previous contingents of the drafted men have been sped upon their

WOMAN COULD HARDLY STAND

Restored to Health by Lydia E. Pinkham's Vegetable Compound.

Fulton, N. Y. — "Why will women pay out their money for treatment and receive no benefit, when so many have proved that Lydia E. Pinkham's Vegetable Compound will make them well? For over a year I suffered so from female weakness I could hardly stand and was afraid to go on the street alone. Doctors said medicines were useless and that I should give up. But Lydia E. Pinkham's Vegetable Compound has proved it otherwise. I am now perfectly well and can do any kind of work." — Mrs. NELLIE PHELPS, care of R. A. Rider, R.F.D. No. 5, Fulton, N. Y.

We wish every woman who suffers from female troubles, such as weakness, backache or the blues could see the letters written by women made well by Lydia E. Pinkham's Vegetable Compound. If you have had symptoms and do not understand the cause, write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free.

An Easy Way to End Catarrh Forever

Simple Home Treatment Destroys Germs of This Dangerous Disease.
The air is always full of catarrh germs thrown off by one person and absorbed by another and when your system fails to throw off such germs they find permanent lodgment in the nose, throat and head and multiply rapidly. You must kill these germs before you can cure catarrh.
The germs of catarrh can best be destroyed by inhaling the pure medicated air of Hyomel (pronounced High-o-mel). This splendid and powerful combination of oil of Eucalyptus with other healing agents has a wonderful germicidal action. You breathe its air into your nose, throat and lungs by means of a small hard rubber inhaler which The Owl Drug Co. and other leading druggists here and in Oakland and vicinity supply with every treatment. This medicated air is certain death to the germs of Catarrh and drives them completely out of your system and when the germs are destroyed the catarrh with all its disagreeable symptoms will stop. As Hyomel is pleasant to breathe and is always in drug stores, successful results or money back, surely no Catarrhal sufferer should so long be trying this simple home remedy. —Advertisement.

Society Women Use New Wrinkle Remover

Since the discovery that a solution of ordinary salt water has a peculiar effect upon wrinkled skins, it has been learned that many prominent society women all over the country have used this simple home treatment with great success. The formula is: powdered salt, one ounce, dissolved in witch hazel, one pint. Used daily as a wash lotion.
The beneficial action of this wash is felt at once. Here is an agreeable refreshing sensation and feeling of exhilaration. Flabbiness and all wrinkles are immediately affected, and the skin soon becomes firmer and more youthful looking. No one need hesitate to get the ingredients at the drug store and make the remedy herself, for there are no harmful effects whatever. —Advertisement.

Ailments

peculiar to women are especially susceptible to our treatment. The Chinese Herbs, scientifically prepared by DR. DUNN FAY WOO, after careful diagnosis of your case, are ALWAYS effective. Most severe cases cured in a few treatments. Irregular periods and other menstrual troubles cured easily and quickly. You pay nothing for consultation and diagnosis and the cost of treatment is very small.
LET DR. WOO HELP YOU TODAY.

Cramps of the Stomach and Bowels.
"I have a high opinion of Chamberlain's Colic and Diarrhoea Remedy," writes Joseph Philo, Ohio. "It will cure cramps of the stomach and bowels quicker than anything I know of." For sale by Osgood Bros. drug stores. —Advertisement.

GIRL GIVES UP FUGITIVE ENEMY TO AUTHORITIES

SAN FRANCISCO, Sept. 28.—His hiding place revealed to Federal officials by his sweetheart, in whose distracted conscience patriotic duty conquered love, Jacob Brewer, who has enjoyed nearly two months of freedom since his daring escape from the military prison on Angel Island on August 4, was recaptured today and sent back to the camp of alien enemies. This is the second time that Brewer has been at liberty since he was first interned.

On the first occasion, the prisoner was brought to this city in the custody of a guard for a necessary visit to a dentist. After the dental work was done, Brewer persuaded the guard to permit him to make a call upon his sweetheart. While the girl engaged the guard in conversation, Brewer fled and made good his escape.

After his recapture he was taken back to the internment camp, but it was not long before he was plotting another getaway. This time, he and a companion evaded the guards in broad daylight, dragged an old waterlogged boat from its resting place in the sand of the beach and paddled to the Marin county shore.

Before his internment as an alien enemy, Brewer was a prisoner in San Quentin penitentiary. He escaped from this institution as well, hiding in a buggy, but was recaptured.

His journey with popular determination, but this one—marking as it does the departure of the last quota of men called to the colors in the first selective draft—will be a truly communal affair. Citizens of the different municipalities will join in honoring the Soldiers of Freedom as they bid them Godspeed on their road to the perils of the battlefield. It is the desire to make this day one long to be cherished among the recollections of the young soldiers—an event which they can recall with reassurance when they are far from their homes.

An elaborate entertainment is being prepared for the occasion and nothing will be left undone to make the day historic. It will be the formal farewell to the citizens of the east bay cities of their number who have chosen to represent this section in the place of honor—the battle line of democracy as it fronts autocracy and tyranny.

One board at least—in district No. 1—has issued a call for more men to appear for examination to fill out the division quota for the October 3 contingent. So many men have secured exemption or have been exempted from disability or other causes that the fourth call has been necessary to get material from which to draw quota names. In division No. 2 a similar situation exists, the board being engaged in the preparation of a third call from this division for more men for examination. District No. 3 is short 44 men; No. 2, 45; No. 3, 14; No. 5, 91; No. 6, 80; and No. 7, 78.

MEN CAN APPEAL.
Any man sent to the military cantonment through mistakes made by local or district boards will be entitled to a hearing before the national army officers, and if his case justifies such action he will be released. Adjutant-General Forrester declared today. The statement was made in answer to the complaint of Joseph Scott, chairman of the district exemption board in Los Angeles, that men had been sent to Camp Lewis by local exemption boards while their cases still were on appeal.

The adjutant-general said it is beyond the power of the appeal board to prevent a man from going to camp after he has been selected and accepted, even though a mistake has been made. The power for further action is not with the state authorities and such dismissals can be made only by federal officers, he said.

'NEVER AGAIN' DECLARES WIFE

"Never again," declared Anna Landsmann in reply to a suggestion from Judge Conroy this morning that she and her husband forget their differences and start all over again. "We did that three times, and no it is never again."
"I'm perfectly willing, Judge," the husband declared. But the wife laughing shook her head and was obstinate.
The husband's attorney, J. A. Kennedy, was arguing against the motion of the wife for maintenance pending the trial of her suit for divorce on cruelty charges. The judge inquired what her present income amounted to, and during the discussion attention was directed to the fact that the husband and wife were sitting close together in the rear of the room.

"Don't you see, they appear to be not having a great difficulty," his honor observed, hereupon the couple laughed and nudged each other very like a couple that had come in to be married.
"Come up close here, and let's get acquainted," the judge said. They came forward and talked it over. Then the suggestion for a reconciliation was offered, and the husband seconded the motion. But little wife had had enough of the marriage game. She was willing to be a sister to him.
The judge denied the motion for temporary alimony when he learned that she received the rent from a house and a salary, but allowed \$50 attorney's fee, which the husband undertook to pay on the instant plan.
The couple went away together, and here's hoping they decide to not go back.

WOMAN IS BEATEN

SEATTLE, Wash., Sept. 28.—The wife of Dr. W. N. Powers was struck over the head with a blunt instrument and rendered unconscious when she admitted a strange man to her home last night. Her assailant made the attack after being informed that Dr. Powers was not at home. Leaving his victim the thug ransacked the Powers home, taking a purse with a small amount of money.

SUIT CONTINUED

Trial of the \$50,000 damage suit brought by the widow of A. C. Gilman, a police officer who was killed last April by being struck by the automobile driven by Frank H. Lottman, a saloonkeeper of Richmond, was continued till January 2, 1918, because Lottman has been drafted and ordered to American Lake.

DIFFER ON VERDICT

RED OAK, Ia., Sept. 28.—The jury in the trial of the Rev. George J. Kelly, charged with murder in connection with the Williston slayings, was discharged by Judge Polas today for failure to agree on a verdict, after deliberating since Wednesday.

NEW ATTACK BY GERMANS IS FAILURE

Efforts to break into the new ground won by the British in the Flanders offensive on Wednesday are being continued by the Germans. They tried it out last night at Zonnebeke, where the British have pushed far along the road to Roulers. The British artillery, machine gun and rifle fire was too much for them, however, and the attack was broken up.

Zonnebeke is an important point, for the present position in the village places them within a half dozen miles of the important north and south railway line connecting Lille with Ostend, on the coast, the cutting of which or its domination at even medium range artillery fire would seriously handicap the Germans in their Flanders operations.

In the Tower Hamlets and Polygon Wood regions, toward the British right flank, the clearing up process which followed Wednesday's battle was carried out further last night and the Germans were driven from isolated positions to which strong parties of them were clinging. There has been little other military activity, except in the Argonne region, where the French front. T. Germans of the Crown Prince's forces made an attempt last night to break into the French lines in this sector, attacking three times. These assaults were all repulsed, the Germans sustaining heavy losses.

On the Caucasus front the Russians are showing renewed aggressiveness. In engagements with the Kurds, detachments of these hostile forces have been driven back in the Euxine region, where the Russians today report the capture of the town of Oromaru, twenty-four miles west of Meri.

RUSS FORCES GAIN.
PETROGRAD, Sept. 28.—The Russians have captured Oromaru, twenty-four miles west of Meri, in the Caucasus, it is announced officially.

The Russian destroyer Okhotnik has been sunk and with a loss of all aboard except eleven, it is an official statement announced today.

BULLETIN.
WASHINGTON, Sept. 28.—The slight wounding of Lieutenant Howard F. Keating of Philadelphia, medical corps, during an air raid on the night of September 24, was reported to the war department today by General Keating.

The death of Private James Tracy of Philadelphia, Company F, First Engineers, as a result of an accident in the line of duty, also was reported.

ATTACK DEFEATED.
PARIS, Sept. 28.—The Germans made an attack last night in the Argonne region. Today's official statement says they were repulsed three times, suffering heavy losses.

LONDON Sept. 28.—Another German counter-attack was made last night against the new British position near Zonnebeke. The attack was broken up by the British, the war office announces.

The region south of the Tower Hamlets and Polygon Woods has been cleared of the enemy.

A successful raid was conducted by the British southwest of Cherisy. The enemy artillery continues active.

Frightful carnage continued early today in the Argonne region, where Crown Prince Rupprecht of Bavaria regained Field Marshal Haig's newly-won positions along the Ypres front.

With reckless abandon and frenzied determination, the German commander sent regiments of men in mass divisions against the British. Australian lines only to see that the few who returned climbed high over the bullet-riddled bodies of their comrades. The British held every position they had in the Argonne region. German losses are declared to have been the heaviest ever paid in such a short period of time.

Today's fighting was featured by increased activity of the British air force, who flew within 100 feet of the ground, using machine gun fire with telling effect.

DUST PLANT STAYS

Rumors that the Charles Butters' aluminum dust plant in Chabot Road was to be moved to Martinez within a few months were not confirmed. Officials said that a new Butters plant for the reduction of zinc ore through an electrolytic process, was soon to be erected at Martinez but that the removal of the aluminum dust plant was not contemplated.

A small plant will be constructed at first at Martinez, according to word from the Butters' office today, and a small number of men employed. As the process works to better advantage and on a large scale the plant will be enlarged.

FRAUD CHARGED

NEW YORK, Sept. 28.—Discovery of evidence of "palpable fraud" in more than a hundred election districts in connection with last week's Republican primaries was announced today by District Attorney Edward Swann. In 16 of these districts he said the election officials would be examined at once under subpoena.

During the recount Wm. M. Bennett, former state treasurer continues to gain. This afternoon his apparent majority had reached 492 votes over Mayor Mitchell, fusion candidate, who by the official returns won the Republican nomination for mayor by 385 votes.

CHARGE CRUELTY

Because her husband, Roy T. Carter, threw her out of the house, kicked her down and bumped her head against the wall and accused her of undue familiarity with other men, Bernice M. Carter has sued for a divorce, charging cruelty.

Everett D. Austin charges infidelity in a divorce action against Alice V. Austin.

Local Workers Are Organizing Will Assist in Big Coin "Drive"

Alameda county will give her second Liberty Loan campaign a rousing send-off at Tuesday night's meeting in Hotel Oakland. Every detail of the part Oakland and the rest of the county will play in the nation's gigantic efforts to raise a second \$5,000,000,000 will be explained by financial experts, members of the local Liberty Loan committee. Not only the technique of the financial side of the undertaking, fascinating as that is in the immensity of the sums involved, but the humanitarian aspect of the loan and what it means for world democracy, will be vividly presented. Cyrus W. Pierce will be one of the principal speakers. A variation from consideration of the Liberty Loan will be talk by Captain F. L. Goord, the only surviving officer of a Canadian regiment after the battle of Loos who will speak on his experiences in the fighting around Loos and Festubert.

The second Liberty Loan will be launched throughout the country on Monday. There will be no set quotas asked from the different sections of the country, but all are expected to subscribe to their utmost. The local Liberty Loan committee has completed elaborate preparations for its share in the work of collecting subscriptions. Not only the large business and banking concerns throughout the county, but the workingman, the clerk and others of moderate means are expected to line up their funds and savings behind America's second great dollar "push."

W. W. Garthwaite heads the general Liberty Loan committee for Alameda and Contra Costa county. The details will be handled by various committees and local committees composed of bankers, business men and farmers in communities in the two counties.

ACCUSED WOMAN GAINS NEW TRIAL RIVERSIDE WINS CITY LEAGUE RALLY

Mrs. Eugenie Chaumette, 3412 Sunny-side street, who has been made defendant in criminal and civil suits filed by Mrs. Marie Osterberg, 3424 Sunny-side street, has secured an important victory in her litigation through the dismissal of an appeal to the Appellate Court. By stipulation between Dunn, White & Alken, attorneys for the defendant, and McClellan & McClellan, attorneys for the plaintiff, the appeal of Mrs. Osterberg from the order of Judge H. D. Burroughs granting a new trial has been withdrawn.

Mrs. Osterberg swore out a complaint against Mrs. Chaumette on April 28, 1916, on a felony charge, alleging that Mrs. Chaumette had solicited a cardic acid up on her arm through a knothole in the board fence which separated the yards of the two families. The case was heard in the police court by Judge Frank Mitchell Jr., who bound the defendant over to the Superior Court.

The Superior Court trial was held in extra sessions before Judge J. J. Trabucchi and a jury, with the result that Mrs. Chaumette was acquitted of the charge. This did not satisfy Mrs. Osterberg, who filed a civil action in which she sought to collect \$10,000 damages. This cause was heard by a jury in extra session court before Judge H. D. Burroughs. The verdict was damages in the sum of \$1800 and \$1875 costs.

Immediately after the entering of this judgment, the attorneys for Mrs. Chaumette moved for a new trial on the ground that new and important evidence had been discovered for their client. The motion was granted by Judge Burroughs, whereupon Mrs. Osterberg's attorneys took an appeal to the Appellate Court against the granting of the motion. It is this appeal which was before the Appellate Court, and the victory thus far lies with Mrs. Chaumette.

According to Mrs. Chaumette's attorneys, it has been found that two children, who had testified that they saw Mrs. Chaumette near the fence at the time of the alleged acid-throwing, were in reality in school on that day.

TRAIL LOTTERY

While lotteries of the same class which some time ago drew fire from the state legislature and in a crusade being waged against them in the bay cities, have continued to operate in Oakland under different guises as "evidenced in arrests made last night by the police. A veteran peddler of tickets, according to the police, and Dal Cuccini, a sign clerk, 145 Broadway, were taken into custody. Attorney Harry Morrison appeared for Davis and Attorney William R. Geary for Cuccini. Both defendants were released on \$300 bail each, the same amount fixed for Chinese lottery-men. The cases were continued until next week.

SEEK CURE IN JAIL

The theory that the war is awakening a spirit of uprightness and cleaner living has proven true in the case of two Berkeley young men, Raymond Henderson and J. E. Smith, who applied to Justice Edgar for a writ of Habeas Corpus to the county jail that they might receive the treatment given there under medical supervision for the cure of the drug habit which rendered them physically unfit to serve as soldiers of liberty.

The request was granted and yesterday they began their term of voluntary imprisonment, hoping that when they are released they will be able to enlist.

2 GIRLS INJURED

Josephine Sergi, 12 years old, 1035 Ninth street, Oakland, and Josephine Costanzo, 13 years old, 728 Market street, San Francisco, were thrown from a motor truck driven by a brother of the Sergi girl when it was struck by another truck owned by the Peoples Express Company at Eighth and Harrison streets this morning, sustaining injuries that require treatment at a local hospital. The truck driven by Sergi was thrown against an electric light post with such force that the pole was broken off at the base. Both the injured girls will recover.

"CONFESSES" MUCH

Thomas Braden is the arch criminal of the year, according to his story to the police, having confessed practically every unsolved crime that has occurred during recent months. He has admitted hold-ups, burglaries and highway robbery of motorists on the Snake road.

Despite the alleged assertions of the prisoner, Captain of Detectives Harry Green declares that the man is a mythomaniac and that his details of the crimes do not check up with what actually occurred.

DESPERADO SLAIN

POTEAU, Okla., Sept. 28.—Cleveland Push, an Indian desperado, was shot to death today by officers in a battle at his home in the western part of this county. Push was wanted on a charge of having murdered his brother September 14. Push concealed the body and forced the dead man's widow to accompany him home. She remained there until the murder was discovered. Push had served a term in the penitentiary for criminal assault and was under bond on a murder charge at the time he was killed.

CRASH SUIT CAUSE

As the result of a collision between two street cars at the crossing of Thirty-eighth avenue and Foothill boulevard in July, when the Thirty-eighth avenue car, crowded with passengers, was overturned, a suit for personal damages in the sum of \$10,000 has been instituted against the traction company by Ada P. Wilson.

MOTHERS' CLUB SOCIAL

Members of the Highland school Mothers' Club held a social meeting in the domestic science rooms of the school yesterday. There was a short program and light refreshments were served.

If you have been buying two pounds of Creamery Butter a week—simply buy ONE POUND

—This wonderful little machine will make TWO POUNDS out of the one pound in about two minutes, and a child can do it just as well as you or we.

—We show you how.

—It saves half the household butter bill, and it's the only way!

—It is NOT a churn.

—It is NOT a flat-bottom tin can.

—It is NOT a hollow handle mixer.

—It IS a Mergery, built on the scientific principle of the "Cone" and made to work—work quickly and work perfectly.

Come and see.

—Sold with full direction and a money-back guarantee.

Main Floor—Near Elevators.

Prof. John H. Austin's Ivor Freckle Cream 45c

—Makes a dark skin lighter, clearer, purer. Removes unsightly facial blemishes and coaxes a new skin.

—Tan, freckles, moth and liver patches, pimples, muddiness and skin discolorations are banished in the only practical way known to dermatologists.

—Ivor Freckle Cream removes the cuticle in small unnoticeable particles and promotes a growth of new skin, as clear, velvety and healthful as that of youth. It is different from other face preparations. It is a medicinal luxury for the toilet, will not grow hairs on the face or skin, and is perfectly harmless. Special tomorrow, jar of Ivor Freckle Cream at

45c

—Prof. Austin will make a free examination of your hair and scalp. Hours 10 to 12 and 2 to 4. Private office—Drug Department, Main Floor.

GRAND JURY WILL INDICT AT MEETING

SAN FRANCISCO, Sept. 28.—The first indictments returned by the federal grand jury in violation of the statute concerning immoral houses within the five mile zone are expected to be made public today. Among those whom it is said will be indicted are August Woods and Louise Rubens, of Vallejo. Also Manuel Andrews, of San Francisco. Two Oakland women, Edith Hammond and Millie Morin, probably will be indicted with Patrick Doyle and a number of others for selling liquor to soldiers. A number of sentences were handed down on pleas of guilty in the district court this morning by Judge Van Fleet. John Hardy receiving six months. Patrick Murphy, Third and Jessie streets, saloon owner, nine months and a \$50 fine, and 25 days in the county jail to Hugh A. Berguson, night clerk at a local hotel. Berguson was extended in the case of Leniency as he had turned government witness.

It is very probable that the indictments of those prominent in the Angel Island Chinese smuggling ring will also be handed down. These will include some 15 former employees of the immigration service.

Tom Tang, a restaurant owner at Palo Alto and Chew Choy, a San Mateo merchant, were indicted by Deputy Marshal Thomas Mulhall today in connection with the Angel Island cases. They will be arraigned before U. S. Commissioner Krull this afternoon.

PREMIER TO SUE

LONDON, Sept. 28.—David Lloyd George, the premier, is commencing proceedings for libel against certain newspapers which announced that on the occasion of last Monday night's raid the premier left London for his home at Watlington Heath. The fact is that the premier started for France that night.

OBJECT TO BOXES

SAN JUAN, P. R., Sept. 28.—The street car conductors and motormen in this city went on strike last evening after cash fare boxes had been installed on the cars. By the action motor bus drivers have contributed to the strike benefit.

Admire Babies?

Every normal woman's heart thrills with the thought of possessing a baby. While many can fully appreciate the sympathetic understanding and the love that glows in a woman's eyes at the sight of her flesh and blood represented in the tiny infant. Every woman in the joy of coming motherhood should prepare her system for the crisis and the unusual strain. Three generations have found the tried and reliable external application, "Mother's Friend" of the greatest help at such a time. By its daily use throughout the period, the skin of the abdomen is made soft and elastic, the expanding muscles relax naturally and with ease, when baby arrives, and the inflammation of breast glands is soothed.

By no chance neglect to obtain this great preparation which science has offered for so many years to expectant mothers. Write the Bradfield Regulator Co., Dept. L, 47 Lamar Building, Atlanta, Ga., for their helpful and interesting book, "Motherhood and the Baby". It is free and is well worth writing for. No woman should fail to help nature in the severest strain ever put upon her. "Mother's Friend" is procurable from any druggist and is a real help to nature in her glorious work. "Mother's Friend" is absolutely and entirely safe.

15,000 Men Drill at Camp Lewis Liberty Lads Work With Vim

Special to The TRIBUNE.

CAMP LEWIS, Sept. 28.—Fifteen thousand men are now drilling at Camp Lewis, the largest number to be engaged since the arrival of troops. Stretching out a distance of more than two miles they fill the parade grounds with battalion and company formation. The evolutions, which were taken part in by such a large body of men for the first time yesterday, are of a simple military nature and are calculated to give the men the necessary rudimentary training, although in larger units than the past.

Word has been received that the 3750 negroes who will constitute the negro regiment at Camp Lewis will arrive early in October. They will come from all parts of this draft district.

A large number of machine guns are on route to Camp Lewis and other ordnance is also expected soon.

FEW ARE REJECTED

Approximately 5000 drafted men of the second quota had received their physical examination by last night. They are being examined at the rate of 1000 a day. The rejections are 6 per cent. With the exception of a few scattering ones the second draft men are all in camp. Those who have not arrived are being checked up, and it is believed that any slackers will be found.

Lieutenant H. J. Whitacre has been appointed chief of the surgical service of the base hospital at Camp Lewis. Until recently he was a practicing surgeon in Tacoma and commodore of the Tacoma Yacht Club.

The discovery of six cases of smallpox in the rural district adjacent to Camp Lewis led to an order that every civilian employed at the camp will be vaccinated.

HAS ONLY PILLOW

Forethought for his comfort even though he was going soldiering resulted in Frank Mann, who comes from Saratoga, Santa Clara county, California, being the only possessor of a pillow in Battery E, 347th Field Artillery, up to Wednesday night. He brought the pillow from home.

Optimism is growing among the men as they become used to their new surroundings. Music is a big factor in fostering the good cheer spirit. Consequently Provisional Ambulance Company B, the Masonic company from San Francisco, which numbers in its membership good singers, dancers and musicians, is one of the most popular units in camp.

Buckets of cold water thrown over one another served in place of the regulation bath in American Lake for San Francisco men who arrived at the light field artillery barracks yesterday, and who, in consequence of having to walk several miles from the station there, were excused from walking the three miles to the lake.

THELAN TELLS OF QUICK DECISIONS

SANTA BARBARA, Sept. 28.—Contrasting the delays, the costliness and the circumlocution of court procedure with the speediness, cheapness and effectiveness of the administration of justice by administrative boards or commissions, Max Thelen, president of the California Railroad Commission and of the National Association of Railway Commissioners, took as his text for the annual address tonight before the California Bar Association, "The Settlement of Controversies Between Citizens." Thelen was the principal speaker of the eighth annual meeting of the association, and delivered the annual address at eight o'clock in the Hotel Arlington.

Thelen explained at length the workings of the California Railroad Commission as illustrative of his theme, saying: "The administration of justice by administrative boards or commissions is not merely of great historic interest, but points definitely and concretely to specific steps which can be taken to insure a more direct, speedy and satisfactory administration of justice in the courts."

"Historically this movement began with the State Railroad Commissions. The first was established in conservative Massachusetts in 1864. Their number has increased until now each of the forty-eight states of the Union, with the exception of Delaware, has a state railroad or public service commission, as also the District of Columbia and Hawaii."

"The commission adopts in the exercise of its limited judicial functions an analogous procedure."

"By those who disapprove of these state and federal methods of bringing speedy justice to the people in the vital things of life, they are at times referred to as 'lunch counter' tribunals. Those who approve of them; these tribunals are frequently referred to as the 'people's courts,' because in them the members of the public are supposed to be able to have justice administered without ostentation or technicality, simply and promptly."

"Our country is today at war. Every man who loves his country realizes more than ever the need of service to the state and to the nation. With the war has come to our people an understanding of the imperative need for efficiency in all branches of the nation's life, including the courts."

"In this exigency, the lawyer's obligation is clear. It is his duty to sweep away the delays and technicalities of the law and to make the administration of justice by our courts simple, speedy and effective. We shall then again see the Temple of Justice strong and stately and beautiful, with people from all ranks of life flocking thither, their faith revived and having administered to them simply, promptly and fairly, the greatest of all blessings—Justice."

The program for this evening's concert is: Luigi dal caro bene.....Secchi
Su Fiorindo a fedele.....Sciaratti
Come, My Beloved.....Handel
Awake, Saturnia.....Handel

MATZENAUER TO RENDER PROGRAM

Margarete Matzenauer, today the undisputed queen of the great array of singers forming the Metropolitan Opera Company and possessor of one of the greatest voices in the world of contemporary music, will be heard this evening in the Oakland Auditorium Opera House in the first of the Artists' Concerts of the season under the auspices of the Music Section of the Oakland Teachers' Association. A splendid program, arranged to display the varied qualities of her voice, which is both contralto and soprano in range, has been selected for this concert and local music lovers will enjoy one of the great events of the year.

Proclaimed by New York critics as one of the most remarkable and versatile of all the world artists that have appeared in that city, Madame Matzenauer has won unstinted praise for her operatic roles. This season which is her first in concert, has already demonstrated that she is as effective on the recital platform as she is with the background of stage and orchestra. The press and the public of every city visited by her have united in declaring her an artist of consummate attainment.

The program for this evening's concert is:

Lungi dal caro bene.....Secchi
Su Fiorindo a fedele.....Sciaratti
Come, My Beloved.....Handel
Awake, Saturnia.....Handel
Am Grabe Aelmelo's.....Schumann
Supplente One.....Brahms
Lied vom Winde.....Wolf

ONE DOLLAR CASH

Three cents a day buys this wonderful six piece set of

\$8.75

ORDER YOUR SET TODAY

We will never get another shipment to sell at this price.

—This is an unusual opportunity, a chance to start an account at Breuners, "where bargains reign," on a cash payment of ONLY A DOLLAR. The order we placed with the manufacturers of these PURE ALUMINUM kitchen outfits was so large that we secured them at a saving of almost A HALF. We are sharing this great saving with you, by selling them for almost a half reduction, and on such easy terms that it makes it within the reach of every housewife.

Guaranteed Pure Aluminum

LATEST COLONIAL DESIGN

Its pure silver color is guaranteed not to rust. All covers are equipped with heat-proof handles that always remain cool.

Is unquestionably the best looking, as well as the most sanitary cooking outfit obtainable. The attractive colonial design and bright silver color make a striking addition to your kitchen.

SIX OF THE MOST USEFUL AND PRACTICAL PIECES.

Includes six necessary articles, one that you are likely to use almost every day of the year, all the year around:

A 6-quart teakettle. This kettle has a cast aluminum spout and a heat-proof handle that is always cool. A 2-quart double rice boiler. A 2-quart percolator. A 4-quart preserving kettle. A 3-quart lipped saucepan.

NO C. O. D. ORDERS. NO PHONE ORDERS. ALL MAIL ORDERS MUST BE ACCOMPANIED WITH CASH, \$8.75, AS OUR OBJECT IN SELLING THESE SETS AT SUCH A LOW PRICE AND ON SUCH EASY TERMS IS TO HAVE YOU VISIT OUR STORE AND TO OPEN NEW ACCOUNTS.

Breuners
CLAY STREET AT 15TH

Warranted Standard Weight

CLEANS IN AN INSTANT.

The smooth-as-glass finish and seamless construction makes it impossible for sediment or grease to gather, either inside or out. By pouring on hot water all pieces are thoroughly and instantly cleaned.

INCLUDES THE NEWEST, MOST IMPROVED PERCOLATOR ON THE MARKET.

Note How Simple. The coffee is placed in the aluminum cup. When the water boils, it passes through the little tube through the top of the percolator and drips down over the coffee until the full strength has been consumed. The glass covered top shows you the strength of the coffee without even lifting the cover. All you have to do is place the coffee in the retainer and pour in the water. It cannot boil over, you don't have to watch it. In a very few moments your coffee is piping hot, ready to serve, clear as amber, rich in flavor.

WELFARE WORKERS SAIL FOR FRANCE

WASHINGTON, Sept. 28.—A third detachment of child welfare workers and nurses will sail for France within a few days in response to urgent cable requests from the American Red Cross Commission in that country. Besides nine or ten Red Cross nurses, the party will include:

Dr. John B. Manning of Seattle, Dr. Edmund J. Labbe of Portland, Ore., Dr. Ebel Lyon Heard of Galveston, Tex., Dr. Helen H. Woodroffe of Ocean Park, Cal., and Dr. Hugh Heaton of Melrose, Mont.

The demand for children's specialists, the commission cabled, "far exceeds expectations. The original unit to

EGGS ARE WORTH \$10,000; LIFE IS SAVED, CLAIM

SEATTLE, Sept. 28.—Los Angeles eggs, when they are the subject of life, are worth \$10,000, according to the claim here today of C. Colcock Jones and Elizabeth C. Jones of Los Angeles, who are attacking the \$300,000 estate of Sarah Louise Jackson. Their claim was disallowed by executors of the estate in Seattle and now they are suing in the superior court.

Fresh ranch eggs and personal services were rendered Mrs. Jackson while she was in Los Angeles to regain her health over a period of seventeen months, alleges the claim.

The demand for children's specialists, the commission cabled, "far exceeds expectations. The original unit to

STANFORD HEAD URGES ECONOMIES

SAN FRANCISCO, Sept. 28.—As the result of an address by Dr. Ray Lyman Wilbur, president of Stanford University, before members of the Commonwealth Club that organization has adopted resolutions, excluding wheat, beef and pork products from its luncheon menus. Other dinner and luncheon clubs will be requested to save these vital foods in the same way.

Dr. Wilbur's talk yesterday at the Commonwealth Club's weekly luncheon contained both a warning and an alarming note. Only through voluntary economy during the months to come, he said, could the war be won for democracy. The physician and university head, who has been one of Food Controller Hoover's aides for the past six months, told his hearers that Germany had won the world war up to the present time, but that from now until the end the allied hope was on the rise, providing America's population economizes.

Dr. Wilbur said that America's game or Germany's is played unconsciously by the masses every day at the table. Economy is an allied success while extravagance is in favor of Germany. Our food program will win or lose the war, Wilbur insisted. The shipping problem will not be solved for some time and the air campaign plan will be long in maturing. In the meantime America is warned to care for its food supply.

Wilbur, who left Washington for the opening of Stanford University, will return, it is thought, to his duties at the capital when registration activities are over.

ISHII DECORATES TOMB OF GRANT

NEW YORK, Sept. 28.—Members of the Imperial Japanese Commission to the United States headed by Viscount Ishii, today began the second day of their visit to New York with a sight-seeing trip through downtown streets, where the flag of Japan has been added to the colors of the other allies on almost every building. In the afternoon the envoys laid a wreath on the tomb of General Grant.

Responding to Mayor Mitchell's welcoming address, yesterday, Viscount Ishii said:

"Your great Goddess of Liberty has given us the challenge, and has passed us as friends. And now the city of our dreams, which has trained our youngsters into students and scientists, or taught our men the wonders of science and the value of the created world, has paused for a precious hour to welcome us and do us honor.

"We shall use the freedom you have given us, with care, and we shall hope to hold its rights and privileges always to commemorate this day of great rejoicing, and of vast importance in the history of our two nations."

WOMAN IS KILLED

SALINAS, Sept. 28.—Mrs. George Greenlaw of Spreckels was instantly killed beneath a train of the Palmar Valley Consolidated railway last evening. She was riding in an automobile from Spreckels to Salinas with Mrs. C. E. Bradley, also of Spreckels. Mrs. Bradley, who was driving, drove directly in front of the train, it is said, having failed to see it approaching on account of trees. Mrs. Bradley was uninjured, but is prostrated from shock.

HELD AS SUSPECT

Pointed out as a man who had committed a theft of clothing in Sacramento, Fred Baldwin, who carried a draft registration card from Los Angeles bearing the name of James Wallace, was arrested by the police last night and is being held for investigation. J. V. Slayle, a Southern Pacific brakeman, saw Baldwin in the street and turned him over to an officer.

Trans-Mountain Electric Travel—The Dream of Years Realized

Prophecy has been crystallized into fact—the future has become today—the age of electric railroading is here. Giant electric locomotives whose only fuel is the limitless power generated by mountain cataracts haul the heavy steel trains of the "Milwaukee Road" across the great mountain ranges of the northwest.

651 Miles Electrified

Through the Belt, Rocky and Bitter Root mountains for 440 miles electricity has superseded steam as motive power—and soon the puffing locomotive will yield its place to the electric giant in the Cascade mountains in Washington, as the work of electrifying the 211 miles through this range is well under way.

When you travel to Chicago and the East journey via the Pacific North Coast and enjoy a smokeless, cinderless, noiseless trip through the mountains over the modern electric way—the

CHICAGO Milwaukee & St. Paul RAILWAY

Send or call for electrification literature giving full particulars of this stupendous achievement.

DEATH AROUSES SINN FEINERS

LONDON, Sept. 28.—The death in Dublin Wednesday of Thomas Ashe, a Sinn Fein leader, reported to have been due to voluntary starvation, according to a despatch to Daily Mail from Dublin, has accentuated painfully the difficulties underlying the surface of Irish politics and has aroused the Sinn Feiners.

Ashe's body, dressed in the uniform of the Irish volunteers lies in state in a Dublin hospital and there may be a public funeral on Sunday. It is said that other Sinn Fein leaders in the hospital prison, where Ashe died are in a dangerous condition. At the inquest Thursday into the death of Ashe, Professor McMeeneer testified that the postmortem examination, at which several other doctors were present, showed that Ashe did not die of hunger. The body was not emaciated and there was an abundance of food in the stomach. Death, he said, was due from syncope, arising partly from heart trouble and partly from an intense congestion of the lungs. Ashe's heart, he added, was abnormal and he would be

TOURISTS CANNOT TAKE MONEY OUT OF THIS COUNTRY

Not more than \$5000 can be carried on the person or in the luggage of any person leaving the United States, according to notification received today from Washington by Surveyor of the Port John S. Irby and Collector of Customs J. O. Davis. This order has been issued to prevent the export of money in any large quantity through the agency of tourists during the period of the war.

A person applying for a passport must make declaration of the amount of money that he intends to take with him, and when he boards a steamship, his person and luggage will be inspected. No one can take out of the country more than \$5000 in currency (United States notes, National Bank notes or Federal Reserve Bank notes), \$500 in gold and \$500 in silver.

apt to succumb to any sudden shock or prolonged struggle.

Dr. McKenna, a hospital surgeon, testified that Ashe told him after he had been fed forcibly on Tuesday that he had collapsed from a fit of coughing.

Ask The TRIBUNE

What is Castoria

CASTORIA is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other Narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food, giving healthy and natural sleep. The Children's Panacea—The Mother's Friend.

The Kind You Have Always Bought, and which has been in use for over 30 years, has borne the signature of Chas. H. Fletcher, and has been made under his personal supervision since its infancy. Allow no one to deceive you in this. All Counterfeits, Imitations and "Just-as-Good" are but Experiments that trifle with and endanger the health of Infants and Children—Experience against Experiment.

Genuine Castoria always bears the signature of *Chas. H. Fletcher*

FINANCIERS FACE BANKRUPT COURT

SAN FRANCISCO, Sept. 28.—Unable to meet payment of a note issue of \$5,000,000 endorsed by themselves in the financing of the Northern Electric Railway, Leon Sloss, Louis Sloss, W. P. Hammond, Eugene J. de Saba Jr., and E. R. Lillenthal, sometime financial powers in California, are defendants in involuntary bankruptcy proceedings instituted by their creditors.

The filing of the petition yesterday was the final resort after months of endeavor to bring about a readjustment along other lines.

The last attempt to find a way out of the financial tangle other than through the federal bankruptcy court was made on September 7, when creditors representing \$2,000,000 worth of claims expressed a willingness to accept \$1,000,000, or about 16 per cent of the face of all claims, if all the creditors would consent to a full release of all liabilities for that amount.

The petitioning creditors against Sloss, Hammond, De Saba and Lillenthal are the Italian-American Bank, \$25,000; First National Bank of Suisun, \$10,000; West Sacramento Company, \$217,925.99; and the Holland Land Company, \$10,000. Against Leon Sloss the petitioning creditors are the Holland Land Company, \$5,000; Ridgeout Estate Company, \$20,000; and Daniel Roth, \$10,000.

In the recent attempt to arrange a settlement, the five endorsers offered \$1,000,000 jointly as follows: \$500,000 by the Slosses (in lieu of any rights accruing under the Sloss trust and security agreement of January 21, 1914, \$250,000 by W. P. Hammond, \$150,000 by E. J. de Saba Jr. and \$100,000 by E. R. Lillenthal. The majority of the creditors refused this offer and preferred to test in the bankruptcy court the ability of the five men to pay more.

It was the intention of the five financiers to sell bonds of the company to take up the \$5,000,000 note issue as it came due. But owing to the financial conditions prevailing in 1906 and 1907 it was found impossible to market the bonds.

Ask The TRIBUNE

SAVE GASOLINE, PLEA TO AUTOIST

Joy riders, overland tourists, motorists, automobilists, jitneyists, truckists, landauers, and all the other forms and kinds of gasoline-propelled vehicles—save your gasoline.

This warning has been sent out by the State Council of Defense to auto proprietors, garage owners and motor supply houses throughout the state on the strength of investigating committees which have reported that a shortage of transportation fuel is imminent within a short period of time unless conservation practices are applied.

Some of the instructions sent out by the state council include the following things which motorists are asked not to do to aid in conserving the state's gasoline supply:

Reduce pleasure trips.
Keep engine from running idly.
Use kerosene and not gasoline for cleaning purposes around the garage.
Look to all leaks in tank, carburetor, or pipes.
Secure economical mixtures and burn all the "air" you can in your engine.

Max Thelan, chairman of the State Railroad Commission, headed the petroleum investigation committee, the report of which is to be considered by Congress in pending oil land legislation now up for consideration. It was upon this report and one filed by Max E. Dolan, chairman of the State Council Committee on Oil and Fuel Supplies, that the warning was sent out to motorists.

Thelan says: "The present decline in oil storage began in September, 1916. The quantity of oil in storage is only \$7,000,000, or less than four months' supply."

FICKERT ACCUSED

SAN FRANCISCO, Sept. 28.—District Attorney Charles M. Fickert probably will be asked by the grand jury to explain why he slapped the face of Selig Schulberg and then knocked him down last night in the corridor of the Hall of Justice.

Fickert declares that Schulberg made a face at him and told him that he "would get what Maxwell got," the allusion being to District Attorney Maxwell, who was shot and killed during the Wheatland riots in the hop fields.

Schulberg is an official of the Workers' Defense League and was waiting outside the grand jury room where he had been summoned as a witness immediately prior to the assault. Schulberg went into the jury room and demanded an investigation, exhibiting his broken glasses and his bruised face. "Witnesses of the grand jury certainly should be protected," said Foreman Jack Spreckels.

SHOW DAHLIAS

SAN FRANCISCO, Sept. 28.—The second day of the Dahlia Society of California's exhibition began with a larger attendance than even on the first. Over 2000 varieties of dahlia blooms are on exhibition, 150,000 flowers making a garden of the Hotel and Coliseum grounds.

Accuses Spouse

SAN FRANCISCO, Sept. 28.—The saying that some people need a house to fall upon them before they wake up does not always hold true, for in the case of Katherine McDaniels, bride of four weeks, it was sufficient to convince her that love was absent in their antebellum when her husband slapped her, kicked her and threw her out, according to her story.

Found half-dazed and bruised by passersby, she was taken in and cared for, and when fully recovered from her physical hurt, but with heart still broken by the rude shattering of her youth's fond dream, she applied to the courts for divorce.

APOLOGY IS MADE

SAN FRANCISCO, Sept. 28.—Michael Williams, author and art-critic, who was arrested last week on a charge of embezzlement, has been completely exonerated in a public statement and apology by Hill Tolerton, print dealer and publisher, who swore to the complaint.

"I withdraw the charge made by me against Michael Williams," he states, "alleging him of the theft of the manuscript of 'Old San Francisco,' a book of which he is the author and I am to be the publisher. I publicly apologize to him and state that the charge was made upon a misapprehension of the facts."

PACIFISTS DEFIANT

LONG BEACH, Sept. 28.—Christian Pacifists, barred from Long Beach, but centering their attack on Los Angeles as a meeting place for a "peace conference" next month, have flung defiance in the very noses of the police and government authorities, it was learned today. They have decided to hold a secret meeting in Los Angeles and have issued "invitations" for that event, according to admissions here today by Rev. Floyd Hardin, organizing secretary of the movement. Hardin says the pacifists will submit to arrest if necessary.

WIFE SEEKS DEATH

LOS ANGELES, Sept. 28.—Because, she alleges, her husband forced her to sign his exemption papers and then left her and her two little children, Mrs. Pearl Frampton, 21, attempted to end her life early today. As a result of her disclosures, the draft authorities are seeking Frampton.

LET US FURNISH

SERGE DRESSES
ARE THE RAGE

this Fall, Annie, so are silks. I know that at CHERRY'S I'll find the newest styles, and I know I can buy on easy terms, so there's where I'm going. Women's store, 515 Thirteenth street. Men's store, 228 Thirteenth street.—Advertisement.

The Cause of Constipation.
Constipation is usually due to a lack of water in the excrement. To effect a cure you must take more water into the system. It may be months, however, before this has any appreciable effect on the bowels, but when persisted in and fruit and vegetables containing water are eaten freely, the condition may be overcome. In the meantime use the mildest laxative obtainable and take only enough to produce the desired effect. Chamberlain's Tablets are one of the best. They are easy to take and are harmless in effect. For sale by Osgood Bros. drug Stores.—Advertisement.

FIFTH REGIMENT GETS TO CAMP

CAMP KEARNY, San Diego, Sept. 28.—The Fifth regiment, California Infantry, arrived today at the camp, coming in four trains from its mobilization camp at Fort Mason, San Francisco. The regiment reached camp shortly before noon and immediately began the task of pitching their tents.

The regiment is in command of Lieutenant-Colonel M. Farrell of San Jose, and Captain Randolph Bryan, as adjutant. The regiment is made up of companies from the treasury cities, and Palo Alto, San Jose, Santa Rosa, Petaluma and San Rafael.

The northern arrivals made a fine impression in camp, and no sooner had they arrived than they were lustily cheered by the Los Angeles and first battalion of San Francisco Infantry which arrived later.

The strength of the regiment is eighty officers and 1075 men.

Representative E. E. McCarthy of the American Railway Association expects to have trains operating from the camp site to the city within a fortnight. Progress on the work is being partly delayed by the intense heat and wind. It is planned to have four trains running daily, with more if required.

Captain S. H. Fletcher, who will be in command of the post exchange arrived at camp today. He will begin his duties at once. The management of the exchange is an important appointment, the captain having control of the various activities of camp life.

ON "CAPITALIST WORLD."

J. E. Snyder, editor of The World, will speak at Debs Hall, 1020 Broadway, Sunday evening at 8 o'clock. His subject will be "The Ebb of the Capitalist World, With Special Reference to the Mooney Case." Admission will be free.

How To Have Health Happiness

If you can eat bountifully, sleep soundly, work vigorously, you enjoy life to the limit and those around you enjoy being near you. You radiate health happiness.

The great secret is plenty of rich, red blood bounding through your veins. For the blood is the stream of life. If it is thin, watery, and sluggish, poisons breed and keep the general health constantly below par.

Gude's Pepto-Mangan

"The Red Blood Builder"

Take Pepto-Mangan if your strength is not equal to your ambition, if your listlessness makes you a quitter, if you are generally run down.

As a rapidly flowing river irrigates and enriches its bordering soil, so does the blood when abundant in healthy red-blood cells give strength and vigor to the body.

Unless you are afflicted with a serious organic disease Pepto-Mangan will probably help you. It builds the body by enriching the blood, by creating thousands of new red-blood cells which, as they course through the system, drive out poisons and carry health to every part of the body.

Friendly Warning: There are many imitations. Refuse them—accept only the genuine—Gude's Pepto-Mangan. You can tell by the package and bottle. Never sold in bulk. Read the circular wrapped around the bottle.

Pepto-Mangan is made only by M. J. BREITENBACH CO., Manufacturing Chemists New York

\$9.50

\$1.00 Month

6 Qt. Tea Kettle
2 Quart Lipped Sauce Pan
4 Quart Covered Sauce Pan
2 Quart Double Rice Boiler
2 Quart Percolator

\$1.00 Cash. Balance \$1.00 Month

AN EXTRAORDINARY SPECIAL that makes it worth your while to shop at CHERRY'S. The order we placed with the manufacturers for these "PURE ALUMINUM" Kitchen Outfits was so large that we secured them AT A SAVING OF ALMOST A HALF. WE ARE SHARING THIS GREAT SAVING WITH YOU BY SELLING THEM FOR ALMOST A HALF REDUCTION. Read the following description. Every word is of interest to you.

Guaranteed Pure Aluminum
LATEST COLONIAL DESIGN
Its pure silver color is guaranteed not to rust. All covers are equipped with heatproof handles that always remain cool.

It unquestionably is the best looking as well as the most sanitary cooking outfit obtainable. The attractive Colonial design and bright silver color make a striking addition to your kitchen.

SIX OF THE MOST USEFUL AND PRACTICAL FEATURES
Includes six necessary articles, ones that you are likely to use almost every day of the year, all year around.

A 6-quart teakettle. This kettle has a cast aluminum spout and a heatproof handle that is always cool. A 2-quart double rice boiler with saucepan insert. A 2-quart percolator. A 4-quart covered saucepan. A 2-quart lipped saucepan. A 1½-quart soup strainer.

Warranted Standard Weight
CLEANS IN AN INSTANT
The smooth-as-glass finish and seamless construction make it impossible for sediment or grease to gather, either inside or out. By pouring on hot water, all pieces are thoroughly and instantly cleaned.

INCLUDES THE NEWEST, MOST IMPROVED PERCOLATOR ON THE MARKET
Note How Simple. The coffee is placed in the aluminum cup. When the water boils it passes through the little tube through the top of the percolator and drips down over the coffee until the full strength has been consumed. The glass-covered top shows you the strength of the coffee without even lifting the cover. All you have to do is place the coffee in the retainer and pour in the water. It cannot boil over, you don't have to watch it. In a very few minutes your coffee is piping hot, ready to serve, clear as amber, rich in flavor.

SAVE YOUR HAIR AND BEAUTIFY IT WITH 'DANDERINE'

Spend 25 Cents! Dandruff Dis-
appears and Hair Stops
Coming Out.

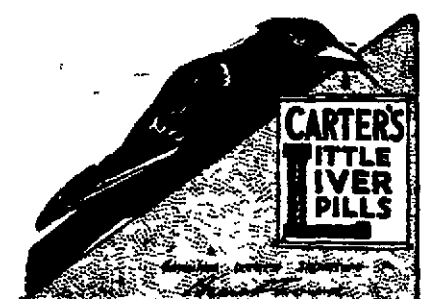

Try This! Hair Gets Beautiful,
Wavy and Thick in Few
Moments.

If you care for heavy hair, that
lustrous with beauty and is radiant
with life, has an inimitable soft-
ness and is fluffy and lustrous, try
Danderine.

Just one application doubles the
beauty of your hair, besides it im-
mediately dissolves every particle of
dandruff; you cannot have nice,
heavy, healthy hair if you have dand-
ruff. This destructive scurf robs the
hair of its lustre, its strength and its
very life, and if not overcome it pro-
duces a feverishness and itching of
the scalp; the hair roots famish,
loosen and die; then the hair falls
out fast.

If your hair has been neglected and
is thin, faded, dry, scraggy or too
oily, get a 25-cent bottle of Knowl-
ton's Danderine at any drug store or
toilet counter; apply a little as di-
rected and ten minutes after you will
say this was the best investment you
ever made.

We sincerely believe, regardless of
everything else advertised, that if you
desire soft, lustrous, beautiful hair
and lots of it—no dandruff, no itching
scalp and no more falling hair—
you must use Knowlton's Danderine,
it eventually—why not now?—Ad-
vertisement.

Are You Tied Up Indoors?

If so, your whole system
naturally gets tied up too.

A lazy liver and consti-
pated bowels are bad
things, dangerous things.

Exercise as much as you
can—but keep your liver
and bowels up to the
mark all the time.

Take one pill regularly
—until you are sure you
are all right again.

MUSICIAN PRAISES OAKLAND SCHOOL

"Almost incredible results" are being
accomplished in the musical education of
Oakland public school children under the
supervision of Glenn H. Woods and his
corps of efficient teachers in the judgment
of Wallingford Rieker, the famous Ameri-
can conductor of the Bluebird Orchestra
of Berlin, who visited the Fremont high
school yesterday and inspected the vari-
ous classes in theoretical and practical
music. The impression of his visit are
set forth in the following paragraphs of
a letter to William J. McCoy, the Oak-
land composer and teacher, who had in-
terested the distinguished visitor in the
local school methods:

"It has been my privilege and pleasure
to inspect the wonderful work that is
being done in the music department of
the Fremont high school, and I find it
hard to give an adequate expression to
my admiration of the almost incred-
ible results of which I have been the wit-
ness.

"To find high school students so intelli-
gent in their understanding of the funda-
mentals of musical composition and so
skilled in the application of harmonic and
melodic principles was indeed a surprise.
The excellent use of excellent results in
ear-training and dictation. This is a
splendid work, and for a high school
seemingly unique, serving not only to de-
velop the talent which is dormant within
the pupils but above all to awaken inter-
est in music as an art and to help con-
quer the tendency of the times to de-
base what should be noble and uplifting.

"Truly Oakland can be proud of the
excellent which has set the rest of the
country, and thanks to the possession
of these men and women who are giving
themselves to the furtherance of the
great work."

RECOGNIZED EXPERT.

Wallingford Rieker is universally recog-
nized among musicians as one of the
world's great orchestra conductors. The
fact that he, as an American citizen tem-
porarily resident in Germany, was hon-
ored with the position of conductor of
the famous Bluebird Orchestra of Ber-
lin is in itself sufficient evidence of his
standing in the musical world. His inter-
pretations of the works of classical and modern
masters of the symphonic form won the
unqualified approval of the Berlin audi-
ence, who are the most critical of all.
He is not only the best of the critics of
the United States into the world, but he
would still be in the German capital, but
as soon as diplomatic relations were
severed, he resigned his position and re-
turned to his native land.

At the symphony concert in San Fran-
cisco last Sunday Rieker conducted
Tchaikovsky's "Pathétique" Symphony
and the Strauss Tone-Poem, "Tod und
Erklarung," without score and gave the
players their cues with infallible pre-
cision. As a musician his rank is the
highest, and his visit to the Oakland
public school system in its relation to
music is an endorsement that is not empty
phrasing.

WOODS' FUNERAL

SAN FRANCISCO, Sept. 28.—The
funeral of Lieutenant-Commander Edward
Charles Woods was held today with full
military honors. Chaplain Wright con-
ducted the service at 233 Sixth avenue,
following which cremation took place.
Woods was stricken Wednesday and was
compelled to leave his duties as aid to
Robert L. Russell, Commandant of the
Marine Corps District. Returning to his
home at 1350 Washington street, he died
in a few hours.

A native of San Francisco, aged 41
years, Woods was graduated from An-
napolis Naval Academy in 1898, serving in
the Spanish-American war. He was re-
called from active service some time ago
but was recalled at the first of the year.
He was in charge of naval reserves in
this district. Surviving him are a mother,
Mrs. Phoebe A. Woods of Nantucket,
Mass., and a widow, Mrs. Corinne A.
Woods.

PLAN NIGHT TEST

The United States Civil Service Com-
mission announces that an examination
will be held on Friday night, October 19,
at the Postoffice building, San Francisco,
beginning at 7 o'clock for positions of
stenographer and typewriter in both the
Department and Post Office Service. Men
only will be admitted to these examina-
tions. This arrangement is made in an
effort to afford opportunities of examina-
tion to persons who are steadily employed
during the usual office hours. Applica-
tion blanks and further information may
be obtained from the Secretary of the
Twelfth Civil Service District, Room 241,
Postoffice Building, San Francisco, Cal.

NEW TRAIN DEVICE

A new device to increase the con-
venience of lavatories on trains, in-
vented by H. P. Gonsouland, a col-
ored porter of 1525 Seventh street,
Oakland, Alameda and Eastern rail-
road, Gonsouland claims that his new
toilet hopper and improved water
heater and flushing device, on which
he has taken out a patent, will be a
great improvement on the present
lavatory equipment and will be
much more convenient to the travel-
ing public.

TWO'S COMPANY; HENCE ARREST

Two's company and three's a crowd,
and Mrs. Mary Pittick, 3142 Union street,
North Oakland, proposes to "bust up" the
crowd. The modus operandi by which
she is proceeding is a suit to annul the
marriage of her husband to his other
wife. The situation, however old the
eternal triangle, is declared to be without
precedent.

According to the romance related in
the complaint, she was married to Pit-
tick, a San Francisco man, August 25, 1913.
On April 30, 1917, in Vancouver, Pittick,
who was employed as a salesman for the
Platt Produce Company of Stockton, mar-
ried the other woman, Florence Rogers,
wife number two, whom he took to San
Francisco and installed in an apartment.
Pittick, the first came down from Stockton,
found the usurper, started a scene, had
husband arrested on a charge of bigamy
and was No. 2 for vagrancy.

The bigamy charge is pending, and hus-
band says he has no fear of conviction
because living with no marriage license
secured at the time of his marriage to wife
No. 1. But pending the result of her ef-
fort to send her husband to jail, Pit-
tick and wife No. 1 are living happily
together.

IRIGROYEN ON LID

BUENOS AIRES, Sept. 28.—President
Irigoyen regards the Luxburg incident as
closed and will do his utmost to continue
Argentina's neutrality. Such a course
is opposite to the overwhelming votes of
the Senate and Chamber of Deputies in
favor of a break with Germany, but the
president is believed to have complete
veto power over such resolutions.

There was no perceptible change in Ar-
gentine's general strike today. The only
wheels moving on railroads were those of
mail trains.

DOWNAGER IS ILL

PETROGRAD, Sept. 28.—The
health of the dowager empress, Marie
Feodorovna, is rapidly failing. Her
condition in the last few days indi-
cates that the end is near.

Banish Pimples Easily, Quickly

Let Stuart's Calcium Wafers Give
You a Complexion to Rival the
Kind People Rave Over.

To Relieve Catarrh Catarrhal Deafness And Head Noises

Persons suffering from catarrhal deaf-
ness and head noises will be glad to
know that this distressing affliction can
usually be successfully treated at home
by an internal medicine that in many
instances has effected complete relief
after other methods treated at home
sufferers who could scarcely hear have had
their hearing restored to such an extent
that the tick of a watch was plainly aud-
ible. Therefore, if you know of some-
one who is troubled with head noises
or catarrhal deafness, put out this for-
mula and hand it to them and you may
have been the means of saving some poor
sufferer perhaps from total deafness. The
prescription can be prepared at home and
is made as follows:

Secure from your druggist 1 oz. Para-
form (Double Strength), about 90 cents.
Add 1 pint of hot water and add 10
grains of water and 4 oz. of granu-
lated sugar stir until dissolved. Take
one tablespoonful four times a day.

Parform is used in this way not only
to reduce by tonic action the inflamma-
tion and swelling in the Eustachian
tubes, and thus to equalize the air pres-
sure on the drum, but to correct any ex-
cess of secretions in the middle ear, and
the result of the treatment is nearly always
quick and effective.

Every person who has catarrh in any
form should give this recipe a trial. Os-
good Bros. can supply you—Advertisement.

Combing Won't Rid Hair of Dandruff

The only sure way to get rid of
dandruff is to dissolve it, then you
destroy it entirely. To do this, get
about four ounces of ordinary liquid
arvon; apply it at night when retir-
ing; use enough to moisten the scalp
and rub it in gently with the finger
tips.

Do this tonight, and by morning,
most if not all, of your dandruff will
be gone, and three or four more ap-
plications will completely dissolve and
entirely destroy every single sign and
trace of it, no matter how much dand-
ruff you may have.

You will find, too, that all itching
and digging of the scalp will stop at
once, and your hair will be fluffy,
lustrous, glossy, silky and soft, and
look and feel a hundred times better.

You can get liquid arvon at any
drug store. It is inexpensive and
never fails to do the work—Adver-
tisement.

FISH PRICE FOR LOCAL MARKETS IS DECIDED ON

The following are the maxi-
mum retail prices at which these
varieties of fish can legally be
sold today (Friday) in San
Francisco, Oakland, Berkeley and
Alameda. Dealers are free to sell
at lower prices, but cannot legally
charge more:

Sole (black and white, skin off)	17 1/2c

Note.—Purchasers who are
overcharged are invited to make
complaint in writing to the state
market director, Harris Wein-
stock.

DECLINES SHOWN IN FOOD PRICES

WASHINGTON, Sept. 28.—Retail food
prices, reports to the statistics bureau,
show declines of forty per cent during the
month ending July 15.

The labor department, in making out
the figures today, states that the decline
was due largely to the decreases in the
price of flour and potatoes which form
a large part of the diet of the average
family. Flour decreased ten per cent and
potatoes 33 per cent on the average.

Onions also decreased 37 per cent.
Movement of prices for the 12 months
ending July 31, 1917, showed an advance,
however, of 33 per cent. Of the meats,
pork advanced more than beef.

Comparing the prices prevailing July 25,
1914, just prior to the present war, the
department announced "with price on
July 15, 1917, food as a whole advanced
42 per cent. In July, 1917, flour 128 per
cent higher than in July, 1914. Corn
meal was 39 per cent higher, lard 78 per
cent higher, sugar 75 per cent higher and
potatoes and bread each 59 per cent
higher."

Girls! Juice of Lemons Clears and Whitens Skin

Prepare a quarter pint of lemon beauty lotion at the
cost of a small jar of ordinary cold cream

The juice of two fresh lemons
strained into a bottle containing three
ounces of orchard white makes a
whole quarter pint of the most re-
markable lemon skin beautifier at
about the cost one must pay for a
small jar of the ordinary cold cream.
Care should be taken to strain the
lemon juice through a fine cloth so
no lemon pulp gets in, then this lotion
will keep fresh for months. Every
woman knows that lemon juice is used
to bleach and remove such blemishes
as freckles, sallowness and tan and is
the ideal skin softener and beautifier.
Just try it! Get three ounces of
orchard white at any pharmacy or
toilet counter and two lemons from
the grocer and make up a quarter pint
of this sweetly fragrant lemon lotion,
and massage it daily into the face,
neck, arms and hands. It naturally
should help to soften, freshen, bleach
and bring out the roses and beauty of
any skin. It is marvelous to smooth
rough, red hands.—Advertisement.

FRIDAY, SEPTEMBER 28, 1917

"THE GRANITE BITERS."

President Kaempf of the German Reichstag is not a man of versatile parts. Upon convening the Reichstag yesterday he reverted again to his statement that "he who attempts to drive a wedge between the kaiser and his people bites on granite." This was intended as a warning reference to President Wilson. But it goes far from the mark. The President of the United States would hardly describe his efforts as attempts to drive a wedge between the kaiser and his people. He aims higher than that; he would destroy for all time the conditions in which it is possible for the descendant of a medieval ruling hierarchy to refer to a great race of men, holding the God-created gift of intelligence, as "his" people.

The President believes the world can be safe only after the people of Germany have seized the right and the instruments of self-rule. This would leave the kaiser out of the national life, except as a possible relic of a hated regime of madness. He would not be "wedged" away, but thrown off and out. There was no occasion for President Kaempf to be so considerably conservative.

Yet he might have said less and been more truthful with his fellow members of the Reichstag and the German people. The biting of granite will be left to the kaiser, the institution and the upholders of kaiserdom. They are biting it today—in Flanders, on the Rainassia plateau, in Sweden and South America—wherever honorable and brave men may be found. The essence and the power of kaiserdom is being steadily worn away and soon the form must also perish.

UNUSUAL FRANKNESS.

Mr. Stephen Panaretoff, the Bulgarian minister, still permitted to reside in Washington, speaks with unusual frankness of the views of his government regarding a war settlement. He reduces them to a commercial equation in a manner which may or may not be pleasing to the powers at Sofia and Berlin.

Bulgaria is not interested in the kaiser's dream of a "Mittelropa," he says. "Bulgaria entered the world war with one object in view—regaining Dobrudja, Macedonia and parts of Serbia, which were unjustly taken from her during the Balkan war and by the treaty of 1878. She had no particular love for the Central Powers—in fact, a few years before had been at war with Turkey."

All the above is correct except the employment of the adjective "unjustly." Opinion differs as to that. Germany and Austria-Hungary having figured largely in dictating the treaty which ended the second Balkan war, as well as that which took the Dobrudja from Bulgaria and gave it to Rumania.

But there is more to the story than Mr. Panaretoff has repeated in his latest interview. Throughout the last half of 1914 and in 1915, Bulgaria was hawking her armed strength among the various belligerents. Readers of The TRIBUNE will recall that in the latter part of 1915 Mr. Panaretoff was in Oakland, and in a printed interview expressed a leaning toward the Entente, providing Bulgaria "could get her terms." From the entente powers Bulgaria wanted, beside the rectification of territory described above, Turkish territory as far as the Maritza river and a rail terminal and Aegean port either at Kavala or Dedeh Agatch.

The Allies would not bargain with Bulgaria for the transfer of either enemy, neutral or allied territory. Then Czar Ferdinand turned to the Central Powers and was promised pay in the land of other peoples for his aid.

It is a curious thing that Mr. Panaretoff has revived the subject just at this time. For nothing can go farther to show how utterly undeserving of sympathy is the Balkan mercenary nation.

Mayor Rolph of San Francisco says he has received word from Senator Phelan at Washington that the latter has been informed that the government does not contemplate the abandonment of its plans to erect a \$10,000,000 merchant shipbuilding plant on San Francisco bay. It is to be hoped that this assurance will mean more than the building of the military cantonment at Palo Alto. San Francisco was able to find solace in the preservation of the camp, although all the men which should have

been sent to Fremont are transferred to North Carolina. There would be just about as much substance in plans for a shipbuilding plant for California if all the government ships are to be built at Norfolk, Va., or some other Atlantic port.

FOR HUMANITY.

Tethelin is a substance about which the medical profession claims many wonderful things as an agent for building up and restoring flesh tissues. Reports have been published of uniform success with it in healing wounds that refused to yield to any other treatment, of causing new tissues to grow in gaps made by shell wounds and of restoring life to human limbs deadened by freezing.

While it may not be justified in saying that this discovery in medicine and surgery is not entirely out of the experimental stage, the evidence so far known gives a basis for considering, tentatively at least, it as one of the most important developments in modern medical science. The confidence of the discoverer is greater than this; he believes in its virtue without any reservation.

The discoverer is Dr. T. Brailsford Robertson, professor of bio-chemistry in the University of California, and by his recent act he has established claim to as much attention as is due his tethelin. Not desiring to see his discovery exploited by profiteering financiers or manufacturers, he has deeded the formula and all rights attached thereto to the State University. By this course he has become a public benefactor and revealed himself as a humanitarian without selfishness. His contribution to science will always be available for the use of the world at the lowest possible cost.

The act of Dr. Robertson should be measured by his great faith, which makes for a great benevolence. No finer appreciation could be expressed than the fervent wish that tethelin proves to be more than Dr. Robertson and his colleagues in science have ever hoped for it.

A Swedish official has found in the royal archives at Stockholm a letter written by Martin Luther on the day on which he nailed his theses on the door of the church in Wittenburg, Germany. Those who remember that Dr. Preuss, the Pan-German author, in common with many of his colleagues, wrote, "God has in Luther practically chosen the German people, and that can never be altered," are apt to suspect Swedish officialdom of also being an agent of German blasphemy.

Governor McCall of Massachusetts has just been renominated as the Republican candidate for governor by receiving 60,000 of the 85,000 votes cast. The causes of this result were three—the desire of the voters to retain the war time governor in office during the war, the appropriateness of permitting Governor McCall to finish the work of making the new State constitution, which he started, and the high satisfaction he has given during the two terms of his governorship.

It may be remarked in passing that the French Chamber of Deputies passed yesterday the war budget for the last quarter of 1917. It amounts to over 12,000,000,000 francs, or \$2,400,000,000, and was approved by a vote of 480 to 4.

NON-PRACTICAL STUDIES.

Many young men entering high school or college this month will be urged by parents and friends to be sure and take "something practical." Why, they will ask, should anybody study Latin when he isn't going to use it? Or Mathematics? Or Physics?

Those questions are all very well if the word "use" is given a wide enough meaning. Our job is living, and we use very many things in living that may not help us directly to earn money. Gladstone is usually accounted a successful man. He was a fine Greek scholar. The Greek never helped him in framing a British budget. But he got such satisfaction out of it that he probably counted it an important part of his equipment for living.

Mr. Balfour, who has been a prime minister of England, writes books on philosophy. President Wilson studied many subjects that have been of no "practical" use to him, but he urges young men to get a college education if possible. Colonel Roosevelt has written on the Icelandic sagas. Dr. Richard Cabot, a highly successful Boston physician, is a specialist in philosophy as well as in medicine. And so the list might be indefinitely extended.

These names are cited, not to prove that a liberal education was the cause of success, but to indicate that men whose opinion is worth something have found a wide variety of studies valuable to them in the business of living.

Teachers insist that the mental training furnished by these studies is important. A fierce discussion is raging around that point at present, and it is not here considered. But it certainly is true that a young man ought not to go through high school or college without getting some idea of the important departments of human activity, the foundations on which civilization rests.

The modern world is built to a considerable extent on science and its achievements. So an educated man ought to have a notion of the methods of science, of physics or chemistry or biology or botany. Mathematics has been a great factor in the world, and mathematical methods are important. So he should become familiar if possible with the theory of some branch of higher mathematics. An understanding of English is much helped by familiarity with its mother tongue. The study of Latin gives an insight into the principles of language and its development that can hardly be obtained in any other way. The same considerations apply to history and economics and literature and music and painting and working with the hands.

In the world, as Matthew Arnold said, is a darkling plain on which ignorant armies clash by night. It is evidently worth while for us to light up the darkness to the extent of our possibilities. We have an entirely natural and wholesome curiosity about the methods by which civilization has worked itself out. We are fortunate if we have a chance in school to get even an imperfect idea of the way in which mankind has begun to win its mastery over nature and of its achievements in making life far richer and more interesting than it was to our ancestors who fought for existence back in the old Stone Age.—Kansas City Star.

NOTES and COMMENT

The National Council of Defense lauds California's promptness and thoroughness in its part of war work, which is a matter of justifiable pride to the loyal people of this state.

The solid flesh melts. A fat man fasts twenty-one days and loses forty-one pounds. "But," it still has a reserve of 307 pounds, so that there is no immediate danger of reduction to a shadow. The instance should be instructive to those who are over-clothed with flesh, however.

T. R. announces that he is against the Hun, whether outside or inside our gates, and rates David Starr Jordan along with Senator La Follette. This rating is not exact, for the California savant has not been performing in that class of late.

The German Social Democratic party has made a move against the Pan-Germans, looking to curb the war frightfulness and to favor peace. But the thing about it is that the Kaiser will say "Past" at the psychological moment, and the Social Democrats will instantly duck.

On an invitation from British and French officials a number of Congressmen had arranged to go over and see how it is on the firing line, but they have now postponed the project on information from the President that going on such a junket just at the present time, in his opinion, is not good form.

The sentencing of the two boys, who murdered the aged woman in the foothills, to the reform school till they become of age, when they are to go free, is by no means too severe. What is to happen when they go free, and are able to appreciate that wanton murder carries such a light penalty, remains to be seen.

Next Monday at noon begins the great drive for the new Liberty loan. The setting of the date and hour when the effort will be inaugurated gives semblance to the conventional wedding that is so often set for "high noon."

The censure visited upon the kaiserette for staging an opera performance at the front is harsh. The offense is not as bad as it might be. It was not opera bouffe that was produced. Perhaps it was realized that that class of entertainment might be regarded as a reflection.

It is a matter of satisfaction that the distinction between free speech and seditious utterance has been so well defined as it was in the trial of O'Connell in San Francisco.

The correspondence between the Czar and the Kaiser, which was seized when the Russian archives fell into the hands of the revolutionists, shows up the malign Kaiser and the soft-headed Czar as nothing else has or is likely to.

The threats against United States Senators for speaking and voting against those guilty of seditious acts ought to stir American blood to the point of running down and punishing those found guilty. This attempt to establish Comarra conditions in this country is not to be too severely dealt with.

The announcement that Mayor Thompson of Chicago is to become a candidate for the United States Senate will at least serve to show whether the state of Illinois is sympathetic with this official's idea of Americanism or not. It has been said that he truly represents his constituents. In that case it is fortunate that a senator from Illinois is not elected from Chicago.

Nothing is better calculated to astonish and dismay the amateur farmer, doing his bit, than the dismemberment of an infinitesimal potato at the bottom of a potato plant of truly tropical luxuriance. — Providence Journal

SPIRIT OF THE STATE PRESS

Tonight will see the farewell tendered by church members and the public generally to Christopher Rues, pastor of the Unitarian chapel, friend of everyone and leader in the field of civic development, who will say farewell prior to his taking up commercial life in the East. Mr. Rues, while only beginning to exercise his influence as a mold of civic consciousness, would doubtless have become a big factor in Hanford and Fresno civic activities had he chosen to remain in the valley.—Hanford Sentinel.

Secretary Lansing has just sprung another—this time edited by George Creel, and therefore not so well done. However, it does put some interesting "Americans" in an interesting dilemma. Perhaps the inclusion of our mutual friend Edwin Emerson as the recipient of \$1000 of the Von Papen slush fund will not particularly embarrass him. Emerson is to be congratulated on the thousand. It will come in handy. Edwin Emerson will be remembered in Fresno for his brief and meteoric career with the Calkins syndicate, from which he virtuously resigned after he found that he had been hired among other things, to roast Theodore Roosevelt, and hence the editor of the Republican in parallel columns—Fresno Republican.

Luther Burbank has performed wonderfully along food production lines—but we hear nothing about anything he is producing or "inventing" that has relieved the high cost. He has improved the quality of the spud and the berry, but that "fodder" he was experimenting with which was to be so cheap and nutritious, the Arizona cactus, etc., has not materialized in the market. Hoover seems to have the rays of the spotlight corralled along conservation lines. Burbank should get in and give us a substitute for some of the high-priced foodstuffs we are now compelled to buy.—Richmond Terminal.

THEIRS BUT TO REASON WHY; THEIRS NOT TO DO OR DIE!

SATURDAY NIGHT CLOSING

To the Editor of The Tribune:

The following is partly in response to an article published in your good paper of a week or so ago on Saturday night closing, by the Retail Dry Goods Association, as well as a note to the general public.

The Saturday night closing movement as I understand it, and I have very good reasons for believing I am correct, is not solely confined to dry goods stores, as that association infers, but would include grocery stores (of the larger variety), furniture houses, meat markets, etc., in fact, all places of business where a number of people are employed.

It is foolish to close the corner stores with the corner stores, where the proprietor, and perhaps a partner mutually interested, are the only ones likely to work Saturday night. One cannot blame them. They are invoking no hardship on others, and the stray pennies they pick up would scarcely have wandered in the direction of the larger stores. As for people depending on Saturday night to do their shopping, that is wrong. The laborers quit work at noon; that gives them until six o'clock, while the better class of people prefer daylight in which to choose their purchases.

It is a well known fact that store clerks (as a body) both men and women are one of the most poorly paid. One might say their work is easy; I contradict that statement. It is not easy. The close confinement with hours of constant standing, combined with the idiosyncracies of the general public, which must be met with and endured, is the hardest thing in the world to contend with. But they are not complaining about this. What they want and ask for is to be free at six o'clock Saturday to start the Sunday before them with fresh minds, not wearied by the strain of night work which cuts them off from any pleasure they might wish

TO ENJOY. The churches would be fuller if Saturday work were lighter.

Is it not far-fetched to say Oakland would look like a country town if the stores were closed? My recollection and knowledge of country stores on Saturday night has always been stores open, streets crowded with farmers' wagons and the band on the square playing riotous airs to greet the hayseeds. A metropolis is just the reverse. Galety? Yes, but of a different variety. The sooner Oaklanders progress along these lines the better. Let us get out of the rut and into the race with the thoroughbreds. They stand for Success and Progress.

Yours very truly,
GEORGE P. PALMER.

COAL FAMINE ON COAST IS IMMINENT

Unless sufficient cars are available to ship coal from the mines coal mining will be practically abandoned in many districts and there will be a coal famine on the Pacific coast as well as in other parts of the country, declares J. B. Muir, secretary of the Alameda County Retail Coal Dealers' Association.

The situation will be accentuated, Muir says, unless there is a general revision upward in the price of coal as the scale of prices recently fixed, it has been found, will not permit operators in some states to run their mines at a profit. This is particularly true in some parts of the South and West, where coal runs in thin veins. The fuel administration recently decided to carry out this revision in a number of outlying districts.

Muir points out that as sufficient cars are not available some of the mines are worked only two or three days a week, although large expenses are incurred every day of the week.

"Railroad congestion and the conditions obtaining at the mines will affect the local coal market more and more. There is a likelihood of a serious shortage of coal in Alameda county this winter unless the government commanders cars to bring coal here," said Muir. "Local coal dealers, too, are making a small profit on account of the overhead expenses. They sell coal which costs them \$13 a ton at \$15 a ton or \$14.50 for two tons."

The Alameda County Retail Coal Dealers' Association at a recent meeting sent a communication to the State Council for Defense asking them to urge the government to have empty cars now on their way to California loaded with coal.

LANSING IS ILL

WASHINGTON, Sept. 28.—Secretary of State Lansing was kept from his desk today by a slight illness. It was stated that his condition was not serious.

School Girls "Cut Out" Candy Oakland Belles Save Sugar

Oakland belles have launched a campaign for war-time candies. The girls of Miss Ransom's school have pledged themselves to eat no more candy this year in order to obey Herbert Hoover's injunction to use sugar sparingly. The pledge was taken yesterday by the students of the school in response to a plea from the president of the student body, Miss Mary Elizabeth Easton, who has just returned from Washington, D. C., and has made a thorough investigation of the sugar question.

The students of Miss Ransom's are the young daughters of the leading families of the east bay cities and besides assisting in the relief work, for which they have contributed \$50 a month, have decided to do their part in the conservation of the sugar supply of the nation.

However, the girls may have sweets provided they be made from honey, molasses, maple sugar, nuts, raisins or chocolate, but the use of cane or beet sugar is forbidden.

An attempt will be made to induce the merchants who handle the toothsome dainties to exhibit only those made from other material than cane or beet sugar.

Miss Easton while in Washington interviewed Herbert Hoover, Dr. Wilbur, his assistant, and Dr. Taylor, assistant secretary of agriculture.

SCHOOL GIRL, 14, HAS DISAPPEARED SUNDAY-SCHOOL DAY IS NOV. 4TH

SACRAMENTO, Sept. 28.—November 4 was named Go to Sunday School Day in a proclamation issued here today by Governor Stephens. The proclamation was in line with a national movement. It says:

The future of the state of California depends in a large measure upon the training and education of the young people of the present generation. In that training and in the upbuilding of the characters of the youth no influence is more powerful than that of our Sunday schools. I am a firm believer in the efficacy of their work, and I feel that the people of this state should do everything possible to encourage and inspire those who are devoting themselves to the furtherance of Sunday school endeavor.

I do therefore designate and set apart, Sunday, November 4, as Go to Sunday School Day and urge all persons to attend the Sunday school of their choice on that day.

Supporters of the movement said there were 2500 Sunday schools with 300,000 enrolled pupils in the state.

Fears that she has been lured away from home and is being detained somewhere against her will are entertained by the police and the parents of pretty Margaret Forrest, 14-year-old school girl, who disappeared from her home, 2316 East Twelfth street, last Sunday and is still missing. She was last seen on Sunday afternoon in company with a 16-year-old boy in a moving picture show in Regent Oakland, where she went with her young brother, afterwards sending him home alone.

When Margaret left home she had only ten cents given her by her mother to pay her way into the show. She did not wear a hat or coat, and it is believed that she had no intention of running away from home. Mrs. Forrest, who is prostrated over her daughter's mysterious disappearance, said the girl was of a quiet, home loving disposition.

Margaret is large for her age. She has brown hair, black eyes and red cheeks. Her right wrist is disfigured by the scar left by a splinter. At the time of her disappearance she wore a white sport suit with blue stripes around the coat and skirt, white shoes and stockings. She went to live in East Oakland recently with her parents upon returning with them from an automobile camping trip to Los Angeles. She attended the Garfield night school.

DR. WILCOX AIDS LABOR OF ARBITERS

Dr. Delos F. Wilcox of New York, public utilities expert, this afternoon opened the final phase of the street car arbitration hearings, which will be devoted to the testimony of expert witnesses summoned by the board itself to supplement the testimony offered by the company and the men.

Dr. Wilcox, who is deputy water commissioner of New York city, was a member of the first public utilities commission of New York and has received nation-wide recognition in his specialty. After his general review of the factors involved in the present controversy, and such specific recommendations as he may make, other experts will discuss various features in detail.

REVIEWS DISPUTES.

The first part of Dr. Wilcox's address was devoted to the interrelationship of a public utility and the community it serves, its employees, patrons and the return on the investment with reference to the relative importance of each. Then he reviewed other industrial disputes such as has arisen between the Oakland street car company and its men, and their amicable adjustment in other cities.

J. P. Potter, general superintendent of the company, was recalled yesterday and questioned by Dr. Wilcox on the ability of the company to fill the places of platform men in event of resignations.

LONG WAITING LIST.

Potter said the company had a long waiting list, and there were constantly more applications than even were filled. Asked how long it took to train a platform man, Potter said ten to fifteen days was the period of instruction, usually, but it took three to five years for a man to reach the maximum efficiency. He could not tell off-hand just how many new men would be available at once in event of "resignations in considerable numbers at about the same time," as Dr. Wilcox expressed it.

S. H. Pickard continued his statistical comparison of wage rates on street car lines of the coast, and emphasized the fact that the employees of the Southern Pacific interurban lines were steam railroad men and when they were transferred to the electric trains carried their steam road wage rating with them.

A. Kibbe, consulting engineer, finished his description of the element of deterioration in valuation of the company's property.

WILL VISIT HAWAII

WASHINGTON, Sept. 28.—A large Congressional delegation will arrive in San Francisco on October 31, on its way to Hawaii, and will sail for Honolulu about November 1. The delegation will visit the islands on the invitation and at the expense of the Hawaiian legislature. While there it will investigate legislative needs of the territory. In the delegation will be Senators Myers, Poindexter, Curtis, Harding, Pittman and Broussard, and Representatives Kahn, Gardner, Reavis, Lazarus, Kettner, Treadway, Lenroot, Garner, White, Dent, Buchanan, Gordon, Nichols and Mudd. The Congressmen will assemble at St. Louis on October 25 and will visit Denver and Salt Lake on their way to San Francisco. They plan to hold patriotic rallies in these cities.

DRAFT HITS SNAG

LOS ANGELES, Sept. 28.—Further threatened disruption of Los Angeles draft machinery growing out of the demand of local exemption board officials for the resignation of Joseph Scott, chairman of the federal exemption board, arose today with the declaration of Secretary Seth Brown of the appeal board that the resignation of Scott, the members of the federal exemption board, with the possible exception of one, would resign. Some officials maintained that neither Scott nor members of the local boards could resign, inasmuch as they were drafted for work by the government until the expiration of the war.

Ask The TRIBUNE

REVAMPED WAR BILL AGAIN READY

WASHINGTON, Sept. 28.—Presentation to the House of the conference report on the war tax bill is planned for today. The bill, increased to raise about \$2,700,000,000 federal revenue in addition to the \$1,333,000,000 secured under existing law, was completed late yesterday by the Senate and House conferees.

Additional taxes of between \$500,000,000 and \$300,000,000 over the Senate bill, which totaled \$2,416,000,000, were added by the conferees. As passed by the House the total was \$1,858,000,000.

Senate levies of \$1,050,000,000 on war excess profits and \$342,000,000 on incomes were substantially unchanged, the conference increases being divided among many items, with a few new taxes added, and many eliminated. House provisions restored. The system of levying war excess profits taxes, however, was practically rewritten in a compromise between the Senate war profits and House excess profits systems. A minimum exemption of 7 per cent on invested corporate capital is said to be provided, with modified allowances for intangible assets.

RAISE POSTAGE RATE.

The only change in the Senate income tax section was to re-arrange and harmonize a very graduated surtaxes on incomes over \$50,000, without substantial change in revenue returns or individual taxation. Normal taxes on individuals and corporations and the lowered individual exemptions as revised in the Senate were approved.

Of the \$250,000,000 to \$300,000,000 additional agreed to by the conferees about one-third was placed upon postage. The House 1-cent letter tax, estimated to raise \$70,000,000, which was stricken out by the Senate, was restored by the conferees and their agreement for a graduated zone increase of 1 cent on letters more than 100 miles in length was adopted. Another large increase ordered was in passenger transportation and Pullman accommodation taxes. Amusement admissions also bear a considerable increase, with Senate exemptions of outdoor parks and their attractions selected.

The Senate provision exempting moving picture theaters charging 25 cents or less from taxation was changed and provision for exempting only much cheaper theaters. The exact exemptions have not been disclosed.

REVENUE AUTO GAIN.

Revenues from automobiles, patent medicines, perfumes and cosmetics and other manufactures also would be increased by the conferees agreement. The 1-cent stamp tax on bank checks, eliminated in the Senate and estimated to raise \$10,000,000, was reported to have been restored to the bill.

Among important House provisions abandoned were the retroactive tax on 1916 incomes, estimated to raise \$108,000,000, for a general 10 per cent tariff levy, estimated to raise \$200,000,000, and consumption taxes on gas, electric and local telephone service, estimated to bring in \$30,000,000.

Another important action understood to have been taken was restoration of the special tax of 15 per cent on munitions manufactures, estimated to raise \$29,000,000. The Senate provision for its repeal was stricken out.

Official announcement of the principal features of the conferees' work probably will be made tomorrow by Senator Simmons and Representative Kitchin.

DRAKE TO SPEAK

Labor's activities in the development of America and how the great natural forces of the country have been harnessed for the benefit of industry by the skill of workmen, will be vividly shown by Charles L. Drake of Chicago, travelogue and sociologist, in an illustrated lecture on "The American Working Class," to be given under the auspices of the Sociologists of Oakland in the Macdonough theater tonight and tomorrow night. Moving pictures will be thrown on the screen showing the working part in industrial progress, and some of the marvelous achievements in which labor has figured prominently, such as the Panama canal, the construction of huge battleships and the building of huge harbors like those of New York. There will also be views of Alaska, the Yellowstone Park, Fifth avenue and the Bowery, the Chicago stockyards and many other of the country's show places.

YOUTH IS BURNED

LOS ANGELES, Sept. 28.—His clothing a mass of flame as he was dashed with a shower of burning gasoline when a motorcycle which he was riding was struck by an automobile, Joseph Jarvis, 17, was saved from cremation by passing motorists who, leaping from their machines, smothered the flames with automobile robes. The boy has only a remote chance for recovery. Police are looking for the driver who struck Jarvis.

ORDER RADIUM RISKS OWN LIFE

DENVER, Sept. 28.—An order for half a gram of radium concentrates was received by a Colorado company from France for use in manufacturing war materials.

The value placed on radium here is \$120,000 a gram.

It is stipulated that the radium is to be delivered in monthly installments, but it is said that the order will tax the capacity of the Colorado radium industry.

Ask The TRIBUNE

SANTA ROSA, Sept. 28.—Dared by a playmate, Clyde Cochran, 8 years old, seized a "live" electric wire in the street. The boy lay burning to death when Roy Daniels, employee of the Pacific Gas and Electric Company, at the risk of his own life, seized the unconscious child and jerked him away from the wire. Daniels worked over the injured boy until assistance arrived. The youngster was taken to the General Hospital. The surgeon found burns of one hand, with marks on legs and one arm. They said the boy had a good chance of recovery. He is the son of Mr. and Mrs. Herbert Cochran.

TAFT & PENNOYER COMPANY

All Goods Purchased Tomorrow Will Be Charged on Next Month's Bill

200 New Serge Dresses

in at Least 30 Models—
Specially Featured at

\$14.50 - \$16.50 - \$18.75

KERENSKY IS HEARD; TELLS RUSS PERILS

PETROGRAD, Sept. 27.—Thursday Premier Kerensky addressed the Democratic congress at its first session today in the municipal theater, receiving applause which came principally from the radical groups of delegates. He spoke in forceful style, with the air of challenging his opponents. The address was largely a defense of the acts of the government under his premiership.

"Cheer, my friends, if you will," said M. Kerensky when he was able to make himself heard. "But bear in mind that a German fleet is moving up the Baltic."

The delegates of the right jeered the Bolsheviks, asking them why they did not cheer the Premier's remark, inasmuch as the Germans were their friends.

DISCUSS REVOLT.
Press editorials continue to discuss with unbridled openness the so-called democratic conference in which the revolutionary element hopes to displace the provisional government.

The Novaya Zitsa, paper of the Bolsheviks (maximalists), is jubilant over the growing influence of the extremists with the masses. The paper rejects any idea of coalition government and calls the conference of the revolutionary democracy the only source of power.

The Retch, the paper of Professor Paul Miliukoff and the Cadets, says that there is nothing for the delegates to the conference to do except to slander the government.

General Korniloff and other high officers implicated in the recent revolt have been transferred from headquarters to Bykhov, in the province of Mohilev.

General Voloskensk has been appointed commander of the armies on the southwestern front to replace General Denikin, who was dismissed for his part in the Korniloff revolt.

The last of the recent issues of General Korniloff as commander-in-chief, reprinted in the Novaya Zitsa from a Mohilev newspaper, tends to show that Korniloff was compelled to launch his revolt largely in an effort to thwart German plans.

General Korniloff, the article adds, had reason to suspect treason among irresponsible Russian organizations in German pay. The general not doubting that responsible influences had the upper hand in Petrograd and that Russia was on the brink of an abyss, took an extreme decision for the purpose of saving the Fatherland.

TRIAL PROCEEDS.
The result of the trial of General Soukhomlinoff proves to be a surprise to the general public, who expected that the former war minister would be found not guilty.

The procurer-general declared that the verdict cannot be quashed on a technicality, as no higher court exists.

Soukhomlinoff's sentence, life imprisonment, carries with it the severest form of incarceration, called "kataga."

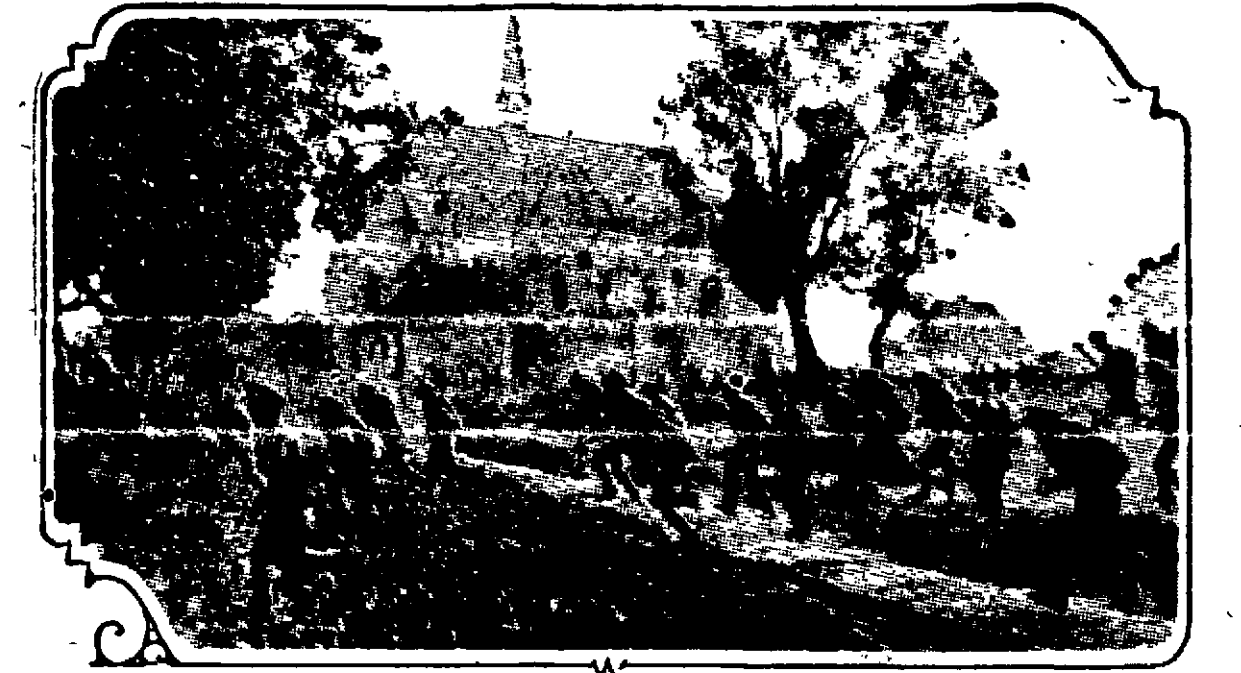

The first ten years the convict passes through different stages of punishment, including chains on the feet, sometimes on the hands also, and he may be chained to a wheelbarrow.

The next several years "on reformation," are spent in prison without chains. Next "on probation" until finally the stage is reached where the convict is set at liberty in a village from which he must not depart. The several stages are shortened by good conduct and the convict finally has the chance to become a free Siberian settler.

The minister of interior has ordered the arrest of Nikolai Lenin, extremist leader, if he is found in Petrograd, but he is not to be taken into custody in the halls of the Democratic Congress.

The Retch reports the reorganization of the revolutionary militia known as the "Red Guard." The reorganization is negotiating with a factory for 12,000 rifles and several machine guns and ammunition in proportion.

These remarkable photographs show better than any written description the state of demoralization and panic among the Russian troops on certain sections of the Russian front. The upper photograph illustrates the first mad rush at one point of the line when a cry was raised: "The German cavalry have broken through." The scene occurred in a village. In the lower picture a Russian soldier of the old school, one of those still loyal to his country and his military duty, is seen using his rifle upon two others whom he has caught in the act of running away.

U. S. WILL SEIZE ALL OCEAN SHIPS

WASHINGTON, Sept. 28.—Every American merchant vessel of more than 2500 tons dead weight capacity available for ocean service will be requisitioned by the government October 15, the shipping board announced in a statement giving the charter rates at which the vessels will be taken over. American ships available for ocean traffic total slightly more than 2,000,000 tons, but some of the armaments have been taken over for the army and navy. In most instances, except where required for actual government service, the ships, it is said, will be turned back to their owners for operation on government account, subject at all times to any disposition the shipping board may direct.

The rates announced will cut sharply the present charter and ocean freight rates charged by American vessels. It is the intention, it is understood, to apply them later to any foreign ships chartered by the United States. The chartering will be in the hands of the shipping board's chartering commission, which is working in New York, has just been named to head.

For freight vessels the rate a ton a month, figured on time charter on a basis of dead weight tonnage, are as follows:

More than 10,000 tons \$5.75 \$8.01 to 10,000 tons \$6.00 to 8000 tons \$6.25 4001 to 6000 tons \$6.50 \$8.01 to 4000 tons \$6.75 2500 to 3000 tons \$7.

Vessels of a speed in excess of 11 knots will be allowed fifty cents a ton additional for each knot or fraction over 11.

For passenger vessels the board adopted a two-fold basis of classification.

**Ice Cream for
Dessert Tonight**
For wholesomeness, purity and food value there is nothing better than Lehnhardt's ice cream.

Phone Oak. 498 and we will deliver your order promptly. Serve it for dinner and watch your dessert troubles vanish.—Advertisement.

Class A, comprising steamers with a capacity of from 75 to 150 passengers. Steamers in both ratings are further classified according to speed. Passenger steamer rates, based on time charters and figured gross register, are as follows:

Class A, 10 to 11 knots, \$9 a ton, 12 knots, \$9.50; 13 knots, \$10; 14 knots, \$10.50; 15 knots, \$11; more than 15 knots, \$11.50.

Class B, 10 to 11 knots, \$8 a ton, 12 knots, \$8.50; 13 knots, \$9; 14 knots, \$9.50; 15 knots, \$10; more than 15 knots, \$10.50.

**Men! The Genuine
MUNSON Last \$5.45
U. S. Army Shoe**

The Government pays up to \$4.85 for these shoes—a wholesale price in half-million lots. We offer the genuine Army Shoe at just 60c pair higher than that. Shoes of this quality ordinarily retail for not less than seven dollars when manufactured in small quantities.

Black or tan leather Blucher Shoes, exactly as pictured—the genuine Munson last, Goodyear welted soles of best oak-tanned leather, at the Lewis Stores, \$5.45.

GOULDS TO LOSE RAILWAY CONTROL

DENVER, Sept. 28.—The Denver & Rio Grande Railroad will be re-emerged with the Missouri Pacific and Western Pacific lines at the annual meeting of the directors here October 16, it was learned today.

Headquarters will be removed from Denver to New York or St. Louis.

The Gould interests are to lose control of the Rio Grande and George J. Gould, now dominant factor in the road's directorate, will become a minority director, according to these stories, which add that the \$28,000,000 debt of the Rio Grande, occasioned by its guarantee of the Western Pacific's bonded debt, was the factor which forced the rearrangement.

It also is reported that several high officers of the Rio Grande will be eliminated through the realignment. Until two years ago the roads were linked almost as closely as rumors have it they are to be after October.

GERMAN FLYER DROPS A NOTE ON AMERICAN CAMP

WITH THE EXPEDITIONARY ARMY IN FRANCE, Sept. 28.—American forces have not arrived in France in sufficient numbers to disturb the Germans, apparently. This was seen yesterday, when a hostile airplane circled high over the American camp, dropping a message weighted with a shell. There was a rush for the note, which was immediately taken to camp headquarters. It read:

"We have no intention as yet of molesting you Americans, because you are not numerous enough to make you worth our attention."

It is reported that the "home rule" policy for the Rio Grande, with independent administration in Denver, under Mudge's presidency. Since then several suits have been brought against the Rio Grande and judgment obtained in one instance, \$38,000,000 on the Western Pacific guaranty. The rumors have it this debt will be assumed by the joint management to be created.

CHAMBER PLANS VOTE ON SALOON

VALLEJO, Sept. 28.—Following the limitation recently expressed by mandant Harry George of the Mare Island navy yard to a committee of citizens the War Department may order the closure of this city closed unless the municipality takes action, the director of the Chamber of Commerce have decided to take a secret ballot of the membership of the organization on question.

CHURCH FUNERAL

The funeral of Thomas J. Giblin, an Emeryville hotel keeper and a student of long standing in Alameda county will be held tomorrow morning at the Bay View Hotel, Emeryville. The service will be held at 10 o'clock, solemn mass will be celebrated. Interment will be in St. Mary's cemetery, Giblin, Wednesday after a long illness.

SATTERWHITE LOSES SUIT FOR SALARY

Scores of officeholders throughout the state of California who have been watching with anxious eyes the result of a suit brought in this county some time ago by Assemblyman William Satterwhite for salary as deputy district attorney were considerably disappointed today when the District Court of Appeals, sitting en banc, sustained the findings of Superior Judge William H. Waste of Alameda county in finding against the applicant.

Satterwhite contested the recently passed constitutional amendment, approved by the people, which provides that no person can hold two state offices at once. Satterwhite, as assistant district attorney, sought to secure a writ of mandamus directed against County Auditor Frank Garrison to compel payment of his salary. Local courts refused to grant the writ and Satterwhite appealed to the District Court of Appeals.

Under the opinion, which was signed by Justices Lennan, Kerrigan and Richards, Satterwhite loses his salary as assistant district attorney. The decision means the blasting of all hopes for numerous other state officeholders who have been awaiting the court's decision to determine their own status.

ESKIMO BOY IS VISITOR FROM FROZEN NORTH

SEATTLE, Wash., Sept. 28.—A sixteen year old boy of good education, saw his first horse, his first automobile, his first ride in a car and enjoyed his first ride in an elevator in this city a few days ago.

He is Tony Joule, a full blooded Eskimo, who arrived here with A. R. Hore, a missionary, from his home at Point Hope, Alaska, 1,500 miles north of Nome. Tony was on his way to New Hampshire to attend an Indian school.

The Eskimos are suffering from the high cost of living, according to Tony. Flour, he said, costs \$7.50 a sack of fifty pounds, but this would not be so bad had the price of whalebone increased in proportion. Instead, whalebone has dropped until the Eskimos now get almost nothing for their efforts.

Tony said he was going to study and learn so that he can return to his people as a teacher and protect them from selfish traders who, he says, cheat them at every opportunity.

WILL BE TEACHER

SAN FRANCISCO, Sept. 28.—Major H. H. Sargent, retired, for more than a year assistant to the department quartermaster, and chief of the finance and accounting division of the western department, was detailed today to act as professor of military science and tactics at Princeton University.

Major Sargent was colonel of the Fifteenth volunteer infantry during the Spanish-American war and was twice recommended to be brevet-colonel.

OXMAN TRIAL IS NEARING CLOSE

SAN FRANCISCO, Sept. 28.—The close of the Oxman case is rapidly drawing to a conclusion with the arguments for counsel on both sides in Judge Dunne's court this morning.

Assistant Attorney General Raymond Benjamin opened for the state, reading much of the testimony which had been presented to the jury during the trial and bringing out strongly Oxman's failure to mention Bigall in the affidavit which he made in Kansas City to Burns detectives that he had seen Mooney place the suitcase at Steuart and Market streets. Benjamin said:

"Does it seem to you, gentlemen of the jury, that if you had been in a similar position to Oxman, and knew of the presence of a second witness who could corroborate your story, that you would not remember to tell it when first approached by the district attorney, as Oxman was approached in Kansas City by the Burns agency acting for Fickert?"

Benjamin also attributed an ulterior motive to the station agent, Frank Woods, at Durkee, of withholding knowledge of Oxman's alleged witnessing for two months after the explosion had occurred. Oxman's personal attorney, James H. Nichols of Baker, Oregon, followed Benjamin and made the ground for Attorney Shorbridge who will close for Oxman in the afternoon session.

OAKLAND TRIBUNE JUNIOR LAUNCHED

A new ship has just come off the publication ways of Alameda county, and preparations are now active to make a printers ink voyage every month in the unsinkable craft. The Oakland Tribune Junior, published by the Oakland Tribune, is a four-page paper, edited by Beverly Swabey, himself a former newspaper carrier. Everything of interest to TRIBUNE carriers will be published in the journal.

The paper boasts not only an editor, but also an assistant editor, whose name is Austin Harris. The sporting editor is Stephen Tickenon of the East Santa Fe route, while artist and cartoonist duties will be lightly taken up by Roland Henderson of the Pacific route. There is a humor column and announcement of the organization's future plans.

EIGHT AMBUSHED

LEXINGTON, Ky., Sept. 28.—Eight members of the Wilson Berger Coal Company at Harlan, while riding to work in an automobile today were ambushed and forced to run the gauntlet of a fusillade of bullets. Twenty-five shots were fired and Dwell Lapper was shot through the shoulder.

Sixty indictments charging striking coal miners with banding together for unlawful purposes were returned here today by a special grand jury empaneled to investigate violations growing from the coal strike.

Tell Your Wife Corns Lift Off

Doesn't hurt a bit to lift corns or calluses off with fingers.

Not a twinge of pain or soreness before applying, or afterwards. This may sound like a dream to corn-pestered men and women who have been cutting, filing and using torturous plasters. Yes! Corns lift off and calluses peel off as if by magic.

A small bottle of freeze-one costs but a few cents at any drug store. Apply a few drops directly upon your tender corn or callus, and instantly the soreness disappears. Then shortly the corn or callus will be so loose that it lifts off. Freeze-one dries instantly. It doesn't eat out the corn or callus, but just shrivels it up so it lifts away without even irritating the surrounding skin. Women should keep a tiny bottle handy on the dresser and never let a corn or callus ache twice. — Advertisement.

'SOCIAL CLUB' TO BE UNDER WATCH

Under the guise of a social club, an all night dance in a new resort opened in Eighth street near Franklin, has attracted the attention of the police as the result of reports to the effect that youths and girls have been seen emerging from the place shortly after sunrise.

Recently a dancing permit was issued to the proprietors by Chief of Police Nedderman, but it was not presumed to give an all night privilege, it is understood. Patrolmen on the beat, who have watched the place report that when they approach with report after hours they hear strains of music but that their entrance is preceded by a tinkling bell and by the time they reach the inner portals the music has subsided and all is orderly.

The resort has no liquor permit but a beverage known as "near" beer is dispensed. Guests, or members of the club, as they are designated, may carry in with them to form the ingredients of a stronger drink than the "near" stuff.

Captain J. F. Lynch of the Central station has issued orders that close watch be maintained over the premises and that summary action be taken if the situation warrants same.

BUYS HAT FOR WIFE; MISTAKE

By MARGARET MASON.
(Written for the United Press.)

There was a little man
And he bought a little hat,
To take his pretty little wife.
He thought it out of sight.
Well, it was signed all right.
And he spoiled all her happy little life.
He thought himself so smart
That he bought a hat for her
That he always picked her hats from then
To now.

Tim ashamed to show her head
In his hats the lady died.
To Dahomey where they're no hats
anyhow.

If your husband is like that
And should bring you home a hat
Leave him quickly—warning take from
what I've said.

If you don't mind me dear,
Then I very greatly fear
That the blame and hat must rest upon
your head.

NEW YORK, Sept. 28.—A strolling up Fifth avenue the other day to get a view of all the latest fashions new and other things of interest to me, I saw a sight I sensed to be beginning of a tragedy, although perhaps you'll not agree that such a simple thing could be a terrible catastrophe—but that is what it seemed to me. Before a hat shop, very smart, whose shadow of the mart attract came to the passer-by, even as the spider does the fly, and lets them not by till they buy, I saw a man of portly men with ruddy face and manner keen (I judge he came from Alabama, some small city in the west) and there he stood with a wage pressed against the glass. Full well I guessed his dire intent and was distressed. I knew that in the book of Fate I was writ his unsuspecting mate, away from the right on the pate, was due to get an awful blow when he had to bend with face aglow and straight unwrapped her gift to show.

AFTER A HAT.

I know that husband meant to buy me a hat; 'twas in his eyes. I had a wild desire to cry, but all I did was snarl, stare and soon I saw him enter there a victim of the modiste's snare. Alas, I knew it was too late to change that poor wife's hateful fate and so I left with a quickened eye.

Oh why, will husbands do this thing! The hearts of helpless wives bring when hats they homeward haste to bring. I'm sure the hat selecting call, in Spring or Summer, Winter, Fall, has sounded in the lives of all. It's time we women took a stand and clubbed together in a band to stop this outrage through the land. I think we should all come out flat and let them know just where we're at against the husband-hand-picked hat.

Now let me haste to quality. It's only when they go and buy a hat alone on the sly, that women hate hats husbands buy. It's quite all right when wife's high, to catch the sales girl's knowing eye.

TAKES HUSBY.

I love to have my husband go with me when shopping for chapeaux. He wants to buy each one we see that is becoming quite to me and so I get not one but three.

And now the bright thought comes to me, and I solve the thing this way, you see, and turn our grief right into glee. As soon as women get the vote, I hope they'll make a little note of this hat matter that I wrote, and pass a law when husbands feel the urge of hat selection steal through all their being, head to head, that they be not allowed to go, unchaperoned to spend their dough, and buy a hat that's beauty's foe. Accompanied by his wife must each man on a hat buying spree, or subject to the law he'll be. Two years' imprisonment or fine to hold, dollars five or more, if he is found with full design alone in any hat shop smart about to buy a piece of art that's sure to break his poor wife's heart.

But if this scheme of mine falls through and as solution will not do, why here's another, for for the "I run him" I am sure of that, if we just give him ut for tat and go and pick him out a hat.

GIRLS WILL AID

SEATTLE, Wash., Sept. 28.—The girls of Seattle, the society maids and the self-supporting office workers and clerks, are banding together in a mighty war relief work project. They are planning the greatest carnival and bazaar in the history of this city to raise an initial fund of \$100,000 which will be devoted to the care of returned wounded soldiers and to the relief of dependents left behind by the young men who served in the war. The girls will enter their period of training for the war on German autocracy.

The carnival probably will be held in December, continuing for an entire week.

SUIT IS DROPPED

The suit brought by Mrs. Celina Spens, divorcee wife of H. Spring, Berkeley millionaire, for \$200 a month maintenance for their minor daughter, Marjorie, was dropped this morning in Judge Conley's court, subject to being called again on notice. The action was taken because the defendant is now away on his third honeymoon.

AIRMAN RUN DOWN

MINNEAPOLIS, N. Y., Sept. 28.—Run down by a motorcycle on a country road, Earl G. Brown, an aviator of the Twenty-third Squadron in training at the aviation corps field here, died today from injuries inflicted. Apparently the motorcycle rider had been in the habit of riding the road later by comrade. Brown's body will be shipped to his mother in Salt Lake City.

Ask The TRIBUNE.

PANTAGES SENDS CHECK FOR FUND

A check for \$45, the proceeds of the work of Harry Coleman, ventriloquist, who Wednesday sold TRIBUNES on the streets for the benefit of the soldiers in the American and British armies, was received at The TRIBUNE office today from Charles H. Niemeyer, manager of the Pantages theater, where Coleman is appearing. Coleman "turned in" to the manager after the day's sales were over. Niemeyer audited and banked it.

Coleman, assisted by British and American soldiers from the local recruiting offices and a committee of citizens, turned newsboy for several hours to raise the fund, which he requested be turned over to The TRIBUNE for proper disposal. He has asked that the British be credited with half and the American fund with the other half.

DECLARES WIFE INSULTED U. S.

Charging that his wife characterized the American soldiers as "Cigarette bum" and that she told him to go to Germany to see "real soldiers," and that when he purchased liberty bonds she became enraged and said that if she had known of his intentions to do so she would have sent more money to Germany, Elmore Sabin has sued his wife, Augusta E. Sabin for divorce.

Mrs. Sabin, according to the complaint, has continually deserted him, and refused to account for her absence when away late at night. There are two children. They live at 1514 Tenth avenue.

OFFICERS PLACED

SAN FRANCISCO, Sept. 28.—The following army orders were issued here today:

Second Lieutenant Rene L. Marx, American Lake, Wash., to the Presidio, San Francisco, to join the motor supply train.

First Lieutenants Lester C. Hunt and William W. McCullis, dental reserve corps, from the Presidio, San Francisco, to Fort Russell, Wyo.

Second Lieutenant Arnold J. Thompson, veterinary reserve corps, from Vancouver Barracks to Fort Yellowstone, Wyo. Lieutenant-Colonel Alexander Murray, medical corps, Camp Kearny, Linda Vista, to report here to Colonel Guy L. Eddy to be examined for promotion.

First Lieutenant Chester L. Magee, medical reserve corps, San Gabriel, is ordered to Arcadia mobilization camp.

NEED AERONAUTS

SAN FRANCISCO, Sept. 28.—Candidates for enlistment in the balloon division of the aviation section, signal officers' reserve corps, are wanted immediately. It was announced today by Major W. C. Emonds of the aviation section. The call states that candidates must be between the ages of 21 and 35 years and be graduates of a high school. Men between the ages of 21 and 35, with a college education, are preferred. Applicants are requested to apply to western department headquarters in this city.

Great Football Race in County League Is Sure

Five Out of Six Alameda Teams Have Even Chance to Win the Honors

Five of the rugby teams out of six entered in the Alameda County Athletic league tournament are even bets for the championship. The only underdog member of the Alameda County league title is a chinch for the state championship. This is the way County High School looks at the situation. The fans who have watched the progress of the practice season now are convinced that the team which is the underdog is the team which is the favorite. The fans who have watched the progress of the practice season now are convinced that the team which is the underdog is the team which is the favorite. The fans who have watched the progress of the practice season now are convinced that the team which is the underdog is the team which is the favorite.

Lowell boys have beaten Oakland, Fremont, Alameda and Technical. But against the Lowell team, Berkeley played in Great Britons, who will not be allowed to play in the Alameda County league games on account of the semester rule. The loss of these two men will bring Berkeley down to a level with other league schools on the dope sheet. In counseling Lowell out when he predicts that the Jr. High Alameda County championship will win, the Rugby title, Martin points to the fact that Lowell had a good start on the other

FREMONT TEAM HEAVY.
Technical and Berkeley seem to have average teams in weight and speed. Oakland and Alameda are fast and light, while Fremont is the heavy team of the league. With all the different styles of teams in the running, the race which starts with the Fremont-Alameda game next Wednesday promises to be a good one. The University High boys are not considered serious contenders, as they have been handicapped by having no coach.

gible players has been made, and with the exception of a couple of men whose records are now being investigated, the list is complete. One of the most notable results of the season in which the names were gone over by the members of the athletic board of the Alameda County League was the protest against the playing of the Atwater twins of Oakland in high school. After much discussion and the withdrawal of the twins, the female and male basketball teams of the Atwater-Osgood was denied Oakland High. These four athletes were important parts of the Oakland fifteen, and their loss will

NEW RULE ON PASSING.
A new interpretation of one of the rules of Rugby has come about this year. The rule which says the ball cannot be passed while down is taken to mean that a player can pass the ball from any position so long as the ball itself is not on the ground. In contemplation of this rule the players of several of the teams have been practicing passing the ball from a

prone position. In the California-Stanford games this rule was always taken to mean that the ball could not be passed while the player was down, and according to the rules a player is down when his knee touches.

It may be pointed out that this rule will make rugby a decidedly rough game, as a player may be tackled when he is in any position. The result of a flying tackle

INTERCLASS SWIM MEET.
With a view to bringing out the swimming material available at the University of California, a swimming meet will be held at the campus pool tomorrow morning. The various class teams competing in the eight events scheduled will be captained by Marston Campbell, seniors; A. D. Smith, juniors; S. T. Flynn, sophomores, and G. Blett, freshmen.

Beavers Soon Due to Pass Slipping Bees

Third Oak Win From Salt Lake Comes While Angels and Portland Make Gains.

By Carl E. Brazier.

Count the Bees out of the pennant race for 1917! You might safely go so far as to count them out of the first division if their display of lack of heart of the last two weeks counts for anything and the Beavers keep coming with the rush they have shown in the last month. For the Bees took a 10-to-6 drubbing on the Oak lot yesterday for the third straight Oak win, and although the win does not do the Oaks any particular good, it did a lot of harm to the Bees.

For that third win came at a time when the Angels were closing up the home game on the league leaders and when the Beavers were picking on the tail-enders to climb one game farther above the .500 mark. As a result the Angels today are only two and a half games behind the Seals; the Bees have dropped until they are three games behind the Angels; the Beavers have climbed until they are only three games behind the Bees. The Oaks are four and a half games behind the Beavers, but have this to be thankful for—they cannot crowd the Tigers out of the basement, no matter what happens, for the Tigers are fourteen and a half games behind the Oaks. Twenty-seven and a half games are all that separate the league-leading Seals from the tail-end Tigers!

GOODBYE IS HAPPY. Happy Goodbye has a good day to be happy yesterday. He likes the hot weather, and it was not ineffective Bee pitching with some effective Oak hitting and some Bees errors in game. The big fellows a safe lead of five runs in four innings and he finished under wraps having the best time of his life. The Bees went out in the first two frames and put over four runs, but there was something in the air—something in the lack of self-confidence which the Bees showed in almost every move, that made a fan feel that it was another Oak day.

Jean Dubois tried the pitching for the Bees to start but could not get going right in the hot weather. Long Tom Hughes tried the relief job and outside of one four run inning—largely due to Bee errors, he got by in good shape. Levens finished the day's work after Hughes gave way to a pinch hitter.

SHEELEY'S TRIPLE COUNTS. Sheeley's triple to center came along with two singles and a sacrifice to give the Bees two runs at the jump. A walk and a double by the Bees, two infield outs even the count for the Oaks in the same frame. Quinn's hit, two errors and a sacrifice fly put the Bees two to the good in the second inning.

Stump and Arlett, and doubles by Miller and Mitze put the Oaks in front in the third with three runs. Hughes appeared on the mound in the next inning and everything proceeded to get all messed up in the Bee infield. Gardner and Arlett did manage to hit the ball to the outfield, but a walk, an infield hit, and some funny work by the Bees was all the other contributions to a four run inning for the Oaks.

The Bees had men on the bases in every inning, but they put just about as much pep into their offensive work as they did into their defensive work, and the Oaks were never worried.

GAMBLERS ARRESTED. In the meantime the Seals were giving the Bees a beating in the south and that was not the only way that the south was showing up the bay regions for the Angels. The Seals were making some real honest-to-goodness arrests among the gambling element which frequents several coast league ball parks this year. Chief Johnson tried pitching for the Seals and the weather was just a trifle warmer than it was on the Oakland lot yesterday according to the weather reports. That may account for the 9 to 1 Angel win. Curley Brown held the Seals to four hits while Johnson and Lefty Brown were being bumped for only eight hits; but eight walks were making those eight hits count for nine runs.

Byron Houck ran his string of shutout innings up to thirty when he blanked the Tigers for three innings in the north. In the fourth they found him for two runs on a walk, an error and three singles. But that was the only damage the Tigers could do; they broke Houck's string of shutout heaving but they could not stop the Beavers from bunting up extra base hits for a 7 to 2 win.

After all, what is more acceptable than a cooling, refreshing ice cream special for dessert. Phone us (Oak. 496), to deliver you a quart special brick. It comes packed in ice for 80 cents, or you can get it at our store, 1818 Broadway, for only 50 cents. LEHNHARDT'S—Advertisement.

Fastest Mile Ever Trotted Fresno Record

The Proof Breaks State Mark in Free-for-All; Hal Logan Still Winning.

FRESNO, Cal., Sept. 23.—The Proof, by The Exponent, driven by Daniels, yesterday set the fastest mile ever trotted in California by winning the final heat in the free-for-all trot at the Fresno district fair in 2:05 1/2.

Allie Lou, who established the former state record of 2:04 at the California State Fair at Sacramento, won the first and second heats but finished second in the final heat.

Hal Logan added another race to his long list of victories by taking the 2.08 pace in straight heats. It made the thirty-ninth straight heat to the credit of Hal Logan and the thirteenth race.

The summary:

2:08 pace, purse, \$2,000.
 Hal Logan, by Jim Logan (Montgomery) 1 1 1
 Potrero Boy, by Dominio (Daniels) 3 2 4
 Mack Fitzsimmons, by Bob Fitzsimmons (Holman) 2 4 8
 Emmaline Dillon, by Guy Dillon (Townsend) 5 2 2
 Also ran, J. C. L. Started. Bold Harry Aerolia.

Time—2:05 1/2, 2:07.
 Free for all trot, purse, \$900.
 Allie Lou, by Kinney Lou (Lowe) 1 1 2
 T. Trost, by The Exponent 2 1 1
 Daniels 2 2 1
 Albalona, by Almaden D (Smith) 3 4 4
 Ella M. R., by Lord Alwin (Mashado) 4 4 4
 Time—2:10 1/2, 2:10 1/2, 2:05 1/2.
 Five furlongs, running, purse, \$100.
 Crusades J. V. (James) 1
 Powers, second, Lokavista (Scoville), third. Time—1:02. Teddy Murphy also ran.

Half mile running, purse, \$100.
 Rocky Boy (Nawn), first, Bert Getty (Scoville), second, Conejo Girl (Sykes), third. Time—50. Teddy Murphy also ran.

OREGON FAIR RACES.
 SALT LAKE, Sept. 23.—Official attendance by Secretary Lee of the Oregon Fair Board places attendance at the State Fair and races yesterday at forty thousand.

Summary of the races:

 Guy Boy (J. Stewart) 1 1 1
 Baby Lally (W. Hogoboom) 3 2 2
 Donde Lopez (P. Ward) 2 3 4
 George M. Sutter 4 4 4
 Time—2:11 1/2, 2:12 1/2, 2:15.
 2:20 pacing, purse, \$2,000; three one mile heats, every heat a race.
 Miss Rica (W. G. Durfee) 1 1 1
 Helen Hal (J. Kirkland) 2 2 2
 Bubbles (W. Hogoboom) 3 3 3
 Time—2:16 1/2, 2:17 1/2, 2:16 1/2.
 Special pacing, purse, \$400, three one mile heats, every heat a race.
 Lolo (G. Stauts) 1 1 1
 Remember Me (H. Hogoboom) 3 2 1
 R. McGregor (Shaw) 5 2 2
 Berlie Seattle (J. Smith) 2 4 4
 King Zolook (D. Brain) 4 5 3
 Lady B. P. (G. Dixon) 1 2 1
 Time—2:16 1/2, 2:17 1/2, 2:16 1/2.
 One mile running, purse, \$200.
 Anus Phoon (A. Powell), first; Solon (Nesayon), second; Dandy Jim (Hale), third. Drummer and Blackthorn also ran.

Time—1:48.
 Four furlongs running, purse, \$100.
 Tell (Martin), first; Little Nellie (A. Powell), second; Silvers (James), third. Time—54 1/2 seconds.

COLUMBUS, Ohio, Sept. 23.—Fifteen heats were raced yesterday afternoon in four regular events and the unfinished 2:15 class trot from Wednesday and still it was impossible to complete the meeting, a seventh heat being necessary to determine the winner of the 2:15 trot which was unfinished when darkness came. The judges were convinced that the race might have been decided as a victory for Doris Watts had Driver Lee tried to win. They took charge of the mare and a different driver will be behind her to compete in the seventh heat today.

The summary:

2:15 class trotting, purse, \$1,000. Three in five heats, every heat a race.
 Michaelsowa, b. m., by Peter the Great (Serrill) 3 1 1 3 1
 Lotta Watts, b. m., by General Watts (Stout) 5 3 1 1 2
 David Look, b. g., by Wilkes (Casey) 2 2 2 2 2
 Started: Yace G. Francis, Belmont, Richard Hunter, Silcock, George Summers, Eva Bingen, Telanna S., Ira C., Doroth Sweeney, Anne Cecil.

Time—2:07 1/2, 2:07 1/2, 2:07 1/2, 2:07 1/2, 2:07 1/2.
 The Arch City, 2:10 class pacing, purse, \$2,000, three in five.
 Ben All, b. g., by Wealth (Pittman) 1 1 1
 Little Battice, b. g., by Red Elm (Cox) 2 2 2
 Peter Nash, ch. h., by Peter the Great (Russell) 3 3 3
 Also ran: Tommy Direct, The Pointer Queen, Helen Chimes, Battle King, Xavier Lou, Homer D.

Time—2:04 1/2, 2:04 1/2, 2:04 1/2.
 Free for all class pacing, purse, \$1,200, three heats.
 Miss Harris, b. m., by Peter the Great (McDonald) 4 1 1
 Ben All, b. g., by The Earl (Childs) 1 5 4
 Hal Boy, b. h., by Hal B. (McMahon) 6 2 2
 Also ran: Russell Boy, William, Single G.

Time—2:04 1/2, 2:04 1/2, 2:04 1/2.
 2:11 class trotting, purse, \$1,000, three in five heats.
 General York, b. h., by General Watts (Nuckole) 1 1 1
 Jeanette Speed, blk. m., by Peter the Great (Cox) 2 2 2
 Sandy, ch. g., by Walt (Donahue) 2 2 2
 Star, ch. g., by Wood B. Grand Marshall. Time—2:09 1/2, 2:10 1/2, 2:09 1/2.
 2:13 class trotting, purse, \$1,000, three in five heats.
 Menzies T. b. m., by Pre-gattile (Curtis) 4 2 1 1 1
 Doris Watts, b. m., by General Watts (Lee) 3 1 1 1 1
 Peter Dallas, b. g., by Peter Kane (Haldeman) 1 4 4 3 2
 Star, ch. g., by Wood B. Grand Marshall. Time—2:09 1/2, 2:09 1/2, 2:09 1/2, 2:10 1/2, 2:10 1/2.

Buck Weaver of the White Sox was on a St. Louis street car bound for a bowling alley. One of the players asked Buck to bend his injured digit. He couldn't. Then he began pulling and twisting it. There was a snap. The bone went into its normal place. "There it is, there it is," yelled Buck, jumping up and giving a dance, accompanied by some whoops. Strangers on the car thought Buck was crazy. His finger is now O. K.

MORRIS-MISKE TONIGHT.
 NEW YORK, Sept. 23.—Carl Morris, huge Oklahoma heavyweight, will meet Billy Miske here tonight in a scheduled ten-round bout. Morris has been warned against rough fighting.

HOSPITAL TASK AT FRONT HUGE

WASHINGTON, Sept. 28.—Word to the Red Cross from the front today painted a heroic and pitiful picture of the endless task confronting American surgeons and nurses struggling to keep abreast the stream of wounded men which constantly pours back upon them from the fighting front.

The experience of a base hospital staff organized under Dr. P. A. Besley of Chicago, typical, depicting the terrific strain under which Red Cross units are laboring with the British and French armies.

Surgeons vainly endeavoring to breast the waves of wounded breaking on their operating tables, without food or rest until they collapse.

WORKS ALL NIGHT

"Dr. P. A. Besley has been operating all night. He is eleven o'clock in the morning and he is still operating," wrote a member of the staff. Dr. Besley recently called for nine additional surgeons and twenty-five Red Cross nurses to assist him.

Dr. Besley's hospital is located three miles from the ocean in a large camp now under canvas. The civilians have all of their little tents in one locality and the nurses have temporary tents. The staff have only medical tents without sides.

The Red Cross is sending a cargo of lumber abroad to construct permanent quarters for these hospitals before winter sets in. Dr. Besley said in one of his letters:

"My English Tommy is certainly a great character. He never complains, no matter what happens to him, and the nurses find it difficult to get him to say what he really means. He is always cheerful and contented, and loves to tell what the British did to the Boches at Vimy Ridge. The simple domestic manners of the American doctors please the patriots and seem to cheer the wounded men greatly. Allied officers visit the camp, and praise highly the work of our men. A recent cable said:

"The Chicago unit at present is caring for more wounded and sick than any other American unit in France. The Chicago unit has only a few hundred fewer cases. The doctors and business men in both units have been working steadily and without much sleep, because there are not enough of them to do the work. It is a great strain on the time given the wounded prompt attention. The orderlies seem tired but determined."

"Most of our enlisted men have been used to all the comforts of life. They have been used to a good bed, a good bath, a good meal, a good drink, a good rest, a good work, a good play, a good love, a good life. They have never done any work half as hard as they are getting here, but they have been splendid all along and have come through with flying colors, without a single exception they are made good and we are proud of them."

SEEK TRACES OF MISSING EX-SOLDIER

Lapses of memory to which Frank J. Griesbaum is subject, a mysterious telephone message, fears of foul play—all of these have complicated the mystery of Griesbaum's disappearance.

The police of two cities have been asked by Mrs. Griesbaum, who lives at 4224 Pershing street, to locate her husband, missing since last Saturday. Sunday morning, after his disappearance, she received a telephone message from an unidentified man, who told her that her husband would be home the following Tuesday.

"Let me speak to my husband," she pleaded. "That's all right, now," the man replied; "I tell you he will be home Tuesday."

"Who are you to have a right to tell me that my husband will not be home till Tuesday," she demanded, and with a gruff oath he hung up. Mrs. Griesbaum has walked the floor of her little home day and night since, racked with the fear that her husband has been the victim of thugs who sent her the message in order that she might not make inquiries until they had time to make a getaway.

BADLY INJURED. As a result of serious injuries while in the service, the missing man is subject to lapses and epileptic attacks and he has on other occasions been missing for a day or so, but always before when he recovered he immediately notified his wife and went home. His wife is certain that he had in his pockets papers that would identify him and that if he had been subject to one of his attacks she would have before him been notified. She is frantic with the fear that someone on the car saw the money and enticed him away on some pretext to a secluded spot where he was beaten and robbed. He had with him when he boarded the car his kit of tools and some groceries which he had purchased.

The missing man was four times near death in the service, being bayoneted during the Boxer trouble and shot while in the Philippines. At the Presidio two years before the San Francisco fire he was thrown and dragged by an unbroken horse, as a result of which he was two years confined in the hospital, four months of the time being unconscious. Released for duty a few days before the fire of 1906 and assigned to patrol duty during those eventful days, he met with another mishap while attempting to rescue occupants of a burning structure when the building collapsed and he sustained a crushed spine. After a long siege in the hospital he was discharged from the army.

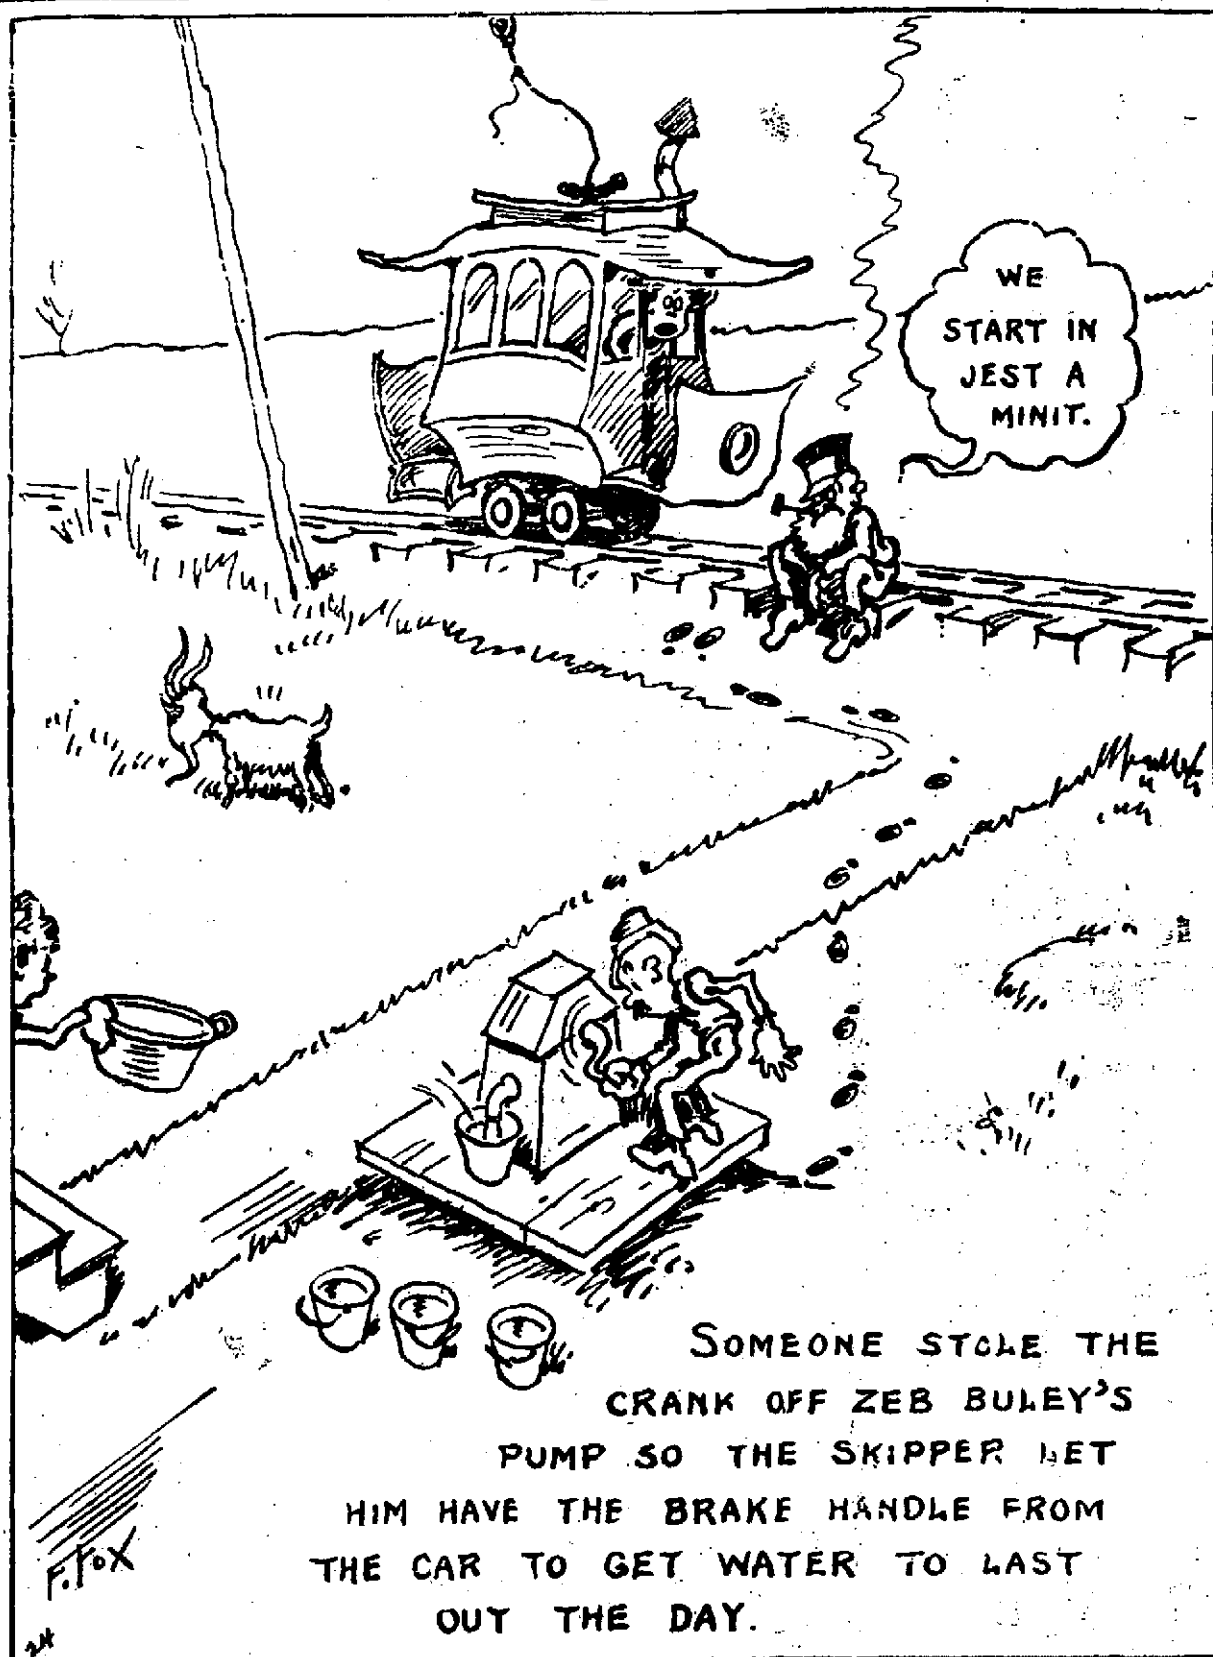

ASKS PENSION. Never until two years ago did he apply for a pension. The examining board pronounced him totally disabled and his former comrades unanimously recommended him as being a leader of athletic activities. From a strapping fellow of near two hundred pounds he has been reduced to a mere shadow of his former self, and although pronounced totally disabled he has doggedly gone about the business of providing for himself and wife. He lost heavily in real estate transactions some years ago and on top of all his troubles his wife fell and broke both her wrists.

According to the recommendations of the pension examining board he should soon receive, if he is alive, back pay in excess of \$50,000.

Just Phone for Dessert No woman enjoys working about a warm stove preparing dessert when Leinhardt's have solved the dessert question with their special ice cream bricks. Delivered to your home packed in ice in quart sizes for 80c. Less, if you call the Broadway store for them. Phone Oak. 496 for prompt delivery.—Advertisement.

AUCTION COMIQUE IS HELD TONIGHT

Tonight is the Auction Comique for the benefit of the Oakland Chapter of the Red Cross in the lobby of the Hotel Oakland. Music, mirth and money will be the features of the entertainment. Promptly at eight o'clock will begin a musical program in which Mrs. Arthur Fickenscher, soprano, and Cedric Wright, violinist, will be the participating artists. Promptly at eight-thirty Auctioneer J. A. Munroe will begin to ask for bids on the valuable collection of paintings, pastels, watercolors, monotypes, etchings, engravings, sculptures and potteries donated by Western artists to the cause of humanity. The committee of the Oakland Art Association in charge of the are works values them at \$3000 at a conservative estimate.

Auctioneer Munroe will be assisted by Larry Harris, Harry Haight, Henry Anderson Laffer, J. Y. Eccleston, George Sterling, Richard Hotelling, George Friend, Ben F. Woolner, Milton Schwartz, Auditor I. Harrison Clay, Postmaster Joseph J. Resborough, Judge William H.

DIVORCE CASE OF FORDS HEARD

SAN FRANCISCO, Sept. 28.—The hearing of the divorce action of C. F. Ford, manager of the traffic department of the Sperry Flour Company, and residing at 901 Powell street, against his wife, Daisy M. Ford, on charges of a statutory nature and cruelty, was completed in Superior Judge Thomas Graham's court at noon with an order that Ford pay his wife \$80 a month temporary alimony and \$75 attorney's fees. This suit grows out of an application for separate maintenance filed by Mrs. Frances Goetting, 675 Second avenue from Charles Goetting, proprietor of the California Market, who named Mrs. Ford in her action. Attempt was made by Ford's attorney this morning to evade the payment of temporary alimony.

Donahue, Judge Frank E. Ogden and Max Horwinski. Among the artists whose work will be auctioned are Xavier Martinez, Louis C. Mullgardt, H. T. Breuer, Percy Gray, Emilie Sievert Weinberg, Bertha Lunn, Maurice del Mue, Spencer Macky, Matteo Sansone, Clark Hobart, Elmer Hoder and Ralph Stackpole.

MAY SEEK SUNDAY'S AID FOR OAKLAND

Ministers and laymen forming the transportation section of the local Billy Sunday committee will go to Los Angeles next week for the purpose of meeting Billy Sunday and urging him to conduct a campaign in Oakland. The sending of this delegation to the famous preacher was discussed at a meeting and banquet of ministers and members of different east bay churches, in the Y. M. C. A. last night. While no resolution in favor of asking Sunday to come to Oakland was adopted by the meeting, many of the 200 church workers present urged that he be brought here. Among the speakers who declared that Oakland should hear Sunday were Rev. W. K. Towner, pastor of the First Baptist church and Albert Saunders, of Scranton, Pa. When Billy Sunday was asked to go to Scranton, Saunders was opposed to him coming, but later became one of Sunday's strongest supporters.

J. W. Phillips, chairman of the manufacturers' committee of the Chamber of Commerce, presided last night. Hugh Williams sang solos and N. L. Wesley and H. M. Warren gave piano and flute duets. W. N. Jenkins is chairman of the transportation committee.

TRUMAN IS NAMED

Charles H. J. Truman of Oakland, was elected president at the closing of the session yesterday at Marysville of the California Funeral Directors' Association. Truman for many years has been an active worker in the organization. Clarence Cooper of Oakland was elected first vice-president; Frank Welt of Santa Rosa was chosen second vice-president; H. W. Maass of San Francisco, secretary; Frank Bevan of Marysville, treasurer, and Clarence Curtis of Healdsburg, sergeant-at-arms. The convention closed last night with a banquet.

ATTORNEY QUILTS

WASHINGTON, Sept. 28.—United States Attorney Schooner at Los Angeles has resigned, effective tomorrow, to take up special work for the government in connection with the pending case against the Southern Pacific Company, to recover valuable oil lands in Southern California. Schooner's resignation to do this work of a program of reorganization necessitated by the death recently of United States Attorney Justice at San Francisco, who was engaged in directing the prosecution.

BENNETT LEADS

NEW YORK, Sept. 28.—William M. Bennett, candidate for the Republican nomination for mayor, continued to maintain his lead over Mayor John H. Murray in the municipal primary election of the ballots cast in last week's primaries when a record was taken early today. The latest figures gave Bennett a majority over the mayor of 134 votes. The inspection of the ballots is expected to be completed by Saturday night.

STEAMER RACES TOWARD BEDSIDE OF SHOT WIFE

Somewhere on Pacific coast waters, Captain Lorenz Lorenzen of the gas steamer Ellen is racing toward Oakland and his wife's bedside. Mrs. Lorenzen, long a sufferer from paralysis of the lower limbs and excruciating pain throughout the upper part of her body, obtained her husband's revolver early yesterday morning and shot herself in the stomach. The attempt at suicide occurred at the Lorenzen home, 1012 Thirty-ninth street. Mrs. Lorenzen was taken to Precedence Hospital, where her condition is said to be encouraging.

Two daughters, Elsie, 11 years old, and Edna, 15, were near their mother when the shot was fired but could do nothing to prevent the deed. Dr. G. G. Reimle is the physician in attendance.

WANT NO PROFIT

WASHINGTON, Sept. 28.—Manufacturers of canned milk representing 95 per cent of the entire industry in the United States, in conference with the food administration today agreed unanimously to submit their business to the supervision of the food administration for the war and to take no war profits either from the public or the army and navy.
